ZA ŠTUDENTE IN UPOKOJENCE

ENOSTAVEN VSTOP IN POVEZOVANJE S STROKO

- DOSTOP DO SLZ DOGODKOV IN SLZ VOZLIŠČA
- VKLJUČENA IZOBRAŽEVANJA
- POSEBNA CENA ZA LOGISTIČNI KONGRES

Z več kot 300 člani in mednarodnimi partnerstvi krepimo strokovnost in ostajamo predani razvoju, sodelovanju in napredku naše skupnosti.

UVODNI NAGOVOR | INTRODUCTORY ADDRESS

**Igor Žula**

Predsednik
Slovenian Logistic Association

Svet je danes zelo drugačen kot nekoč. Moč in interesi velesil določajo tempo, spremembe pa imajo takojšen vpliv na nas. Moramo znati ustrezno reagirati, za kar potrebujemo dobre temelje.

Odločevalci nimajo časa obiskovati različne dogodke in iskati parcialne odgovore na vprašanja, kaj se dogaja v svetu, kakšni so tehnološki trendi, kakšna je vizija za prihodnost in kakšne so možnosti za sodelovanje. Zato smo vse to združili na enem mestu – povezali industrijo, logistiko in šolstvo ter dodali močno mednarodno noto.

Dober dogodek mora zadovoljiti vse udeležence: kakovostna predavanja, ki rešujejo izzive slušateljev, okolje in udeleženci, ki se lahko dogovorijo za nov posel, ter energija, ki sprošča in daje občutek, da ste zares zaželeni.

Več kot 45 predavanj zagotavlja bogastvo izkušenj. Iskreno verjamemo, da bomo po dogodku vedeli več in lažje sprejemali odločitve o tem, kako bomo boljši. 30 predavanj temelji na predstavitvi dobrih praks – konkretni primeri, ki nas bodo usmerili v prave odločitve. 15 predavanj v okviru akademskega simpozija pa je izjemnega pomena za razmišljanje o prihodnosti.

Pogosto slišimo, da je logistika vedno manj zanimiva za mlade. Kako to spremeniti? Mladi so pomembni – prinašajo novo energijo, drugačen pogled in več optimizma. Vse to je pomembno. Želimo jih imeti z nami, zato poseben pomen namenjamo hackathonu. Že leta 2025 smo bili presenečeni nad znanjem, iznajdljivostjo in voljo, ki so jo pokazali. Tokrat ekipo širimo tudi v mednarodno okolje.

Digitalna preobrazba pomeni celovito prenovu poslovanja oziroma poslovnega modela z uporabo digitalnih tehnologij. To ni nekaj, kar počnejo le najboljši – brez resnega pristopa k temu vprašanju bomo tekli le na kratke proge. Zato področjem umetne inteligence, IoT in telematiki namenjamo samostojne plenarne sklope in predavanja, ki vsebine obravnavajo z različnih zornih kotov. Tudi

The world today is very different from what it once was. The power and interests of major global forces set the pace, and changes have an immediate impact on us. We must know how to respond appropriately, which requires strong foundations.

Decision-makers do not have time to attend various events and search for partial answers to questions about what is happening in the world, what the technological trends are, what the vision for the future is, and what the opportunities for cooperation might be. That is why we have brought everything together in one place – connecting industry, logistics, and education, and adding a strong international dimension.

A good event must satisfy all participants: high-quality lectures that address the audience's challenges, an environment and participants who can agree on new business opportunities, and an energy that relaxes and creates a feeling of truly being welcome.

More than 45 lectures ensure a wealth of experience. We sincerely believe that after the event, we will know more and be able to make better decisions about how to improve. Thirty lectures are based on best practices – concrete examples that will guide us towards the right decisions. Fifteen lectures within the academic symposium are of exceptional importance for thinking about the future.

We often hear that logistics is becoming less attractive to young people. How can this be changed? Young people are important – they bring new energy, a different perspective, and greater optimism. All of this matters. We want them with us, which is why we place special emphasis on the hackathon. Already in 2025, we were surprised by the knowledge, ingenuity, and determination they demonstrated. This time, we are expanding the team into the international environment as well.

Digital transformation means a comprehensive overhaul of business operations or the business model through the use of digital technologies.

zato smo nekoč uspešno samostojno konferenco Telematics vključili pod naše okrilje.

Mednarodnemu okolju namenjamo veliko pozornosti – tako v marketinškem smislu kot s posebno podporo pri povezovanju. 800 odločevalcev na enem mestu je velik potencial za dober networking in sklepanje poslov na mednarodni ravni, saj prihajajo udeleženci iz 25 držav, tudi iz ZDA.

V 25 državah torej vedo za naš kongres in so pripravljeni priti. Ko pridejo, jim moramo ponuditi več kot le dobra predavanja.

Seveda nihče ne pride kar tako. Torej najbrž delamo nekaj prav. In to delamo z jasnim ciljem – ustvarjamo najboljši logistični dogodek na svetu! Največjega žal ne moremo, najboljšega ... zakaj pa ne.

This is not something only the best do – without a serious approach to this issue, we will only be running short distances. That is why we dedicate separate plenary sessions and lectures to artificial intelligence, IoT, and telematics, addressing these topics from different perspectives. This is also why we have incorporated the previously successful standalone Telematics conference under our umbrella.

We pay great attention to the international environment – both in terms of marketing and with special support for networking. Bringing 800 decision-makers together in one place represents great potential for strong networking and international business opportunities, as participants come from 25 countries, including the United States.

So, in 25 countries, people know about our congress and are willing to attend. When they come, we must offer them more than just good lectures.

Of course, no one comes here without a reason, so we must be doing something right. We are doing it with a clear goal: to create the best logistics event in the world. We may not be able to make it the largest, but the best one– why not?

Connect with key stakeholders in logistics, transport, industry and digital solutions from Slovenia, the wider region and across Europe.

UVODNI NAGOVOR | INTRODUCTORY ADDRESS

Alkan Aličik

Managing Director

MSC Mediterranean Shipping Company

Miloš Miličev

Non-Executive Chairman

MSC Mediterranean Shipping Company

V družbi MSC Mediterranean Shipping Company verjamemo, da logistika pomeni veliko več kot zgolj premikanje blaga – je hrbtenica globalne povezanosti, gospodarske rasti in trajnostnega razvoja. V vse bolj povezanem in hitro spreminjajočem se svetu je potreba po učinkovitih, zanesljivih in inovativnih rešitvah v dobavnih verigah ključna kot še nikoli doslej.

Z globalno mrežo, ki obsega več kot 520 pristanišč, več kot 300 trgovskih poti in floto z več kot 1.000 ladjami, ima MSC ključno vlogo pri ohranjanju pretoka svetovne trgovine. Naša prisotnost v Sloveniji, ki se je začela v Kopru leta 2003, predstavlja pomembna strateška vrata, ki povezujejo Srednjo in Vzhodno Evropo z globalnimi trgi. Z izkoriščanjem edinstvene geografske lege Luke Koper ter močnim intermodalnim omrežjem pomorskega, železniškega in cestnega prometa MSC Slovenija zagotavlja nemoten pretok tovora in prilagojene logistične rešitve za podjetja vseh velikosti.

Ta uspeh temelji na predani ekipi strokovnjakov, zavezanih operativni odličnosti, inovacijam in osredotočenosti na stranke. Z močnim položajem na trgu in približno 30-odstotnim tržnim deležem v Sloveniji MSC še naprej krepi svojo vlogo zaupanja vrednega partnerja v mednarodni trgovini in logistiki.

Mednarodni logistični kongres je dragocena platforma za izmenjavo idej, znanja in dobrih praks med vodilnimi v industriji, strokovnjaki in inovatorji. Spodbuja dialog o izzivih in priložnostih, ki oblikujejo prihodnost logistike – od digitalne preobrazbe in trajnosti do odpornosti globalnih dobavnih verig.

Kot družba, močno vpeta v logistični ekosistem, prepoznavamo pomen takšnih pobud pri spodbujanju napredka in sodelovanja v panogi. Zaradi vseh teh razlogov s ponosom podpiramo Mednarodni logistični kongres 2026 kot diamantni sponzor.

At MSC Mediterranean Shipping Company, we believe logistics is much more than the movement of goods – it is the backbone of global connectivity, economic growth, and sustainable development. In an increasingly interconnected and rapidly evolving world, the need for efficient, reliable, and innovative supply chain solutions has never been more critical.

With a global network spanning over 520 ports, more than 300 trade routes, and a fleet of over 1,000 vessels, MSC continues to play a vital role in keeping global trade moving. Our presence in Slovenia, established in Koper in 2003, represents a key strategic gateway connecting Central and Eastern Europe with global markets. By leveraging the unique geographic position of the Port of Koper and a robust intermodal network of sea, rail, and road transport, MSC Slovenia ensures seamless cargo flows and tailored logistics solutions for businesses of all sizes.

This success is driven by a dedicated team of professionals committed to operational excellence, innovation, and customer focus. With a strong market position and approximately 30% market share in Slovenia, MSC continues to strengthen its role as a trusted partner in international trade and logistics.

The International Logistics Congress provides a valuable platform for the exchange of ideas, knowledge, and best practices among industry leaders, experts, and innovators. It fosters dialogue on the challenges and opportunities shaping the future of logistics – from digital transformation and sustainability to resilience in global supply chains. As a company deeply embedded in the logistics ecosystem, we recognise the importance of such initiatives in driving progress and collaboration across the industry.

For all these reasons, we are proud to support the International Logistics Congress 2026 as a Diamond Sponsor.

**INTERMODAL
SOLUTIONS**

BE PREPARED FOR YOUR SUPPLY CHAIN

[msc.com/intermodal](https://www.msc.com/intermodal)

Building on decades of experience, MSC aims to deliver a seamless journey for your cargo, serving all industries worldwide. We keep expanding our inland network and offer integrated truck, train and barge solutions to meet your supply chain requirements.

MOVING THE WORLD, TOGETHER.

Zagotavljamo kakovostne in strokovne storitve na področju telekomunikacij že od leta 1992. Več kot 30-letne izkušnje so jamstvo za zanesljivost in odličnost pri izvedbi projektov.

Kot platinasti partner proizvajalca radijsko-komunikacijske opreme **Motorola Solutions** v Sloveniji zagotavljamo celovite rešitve ter strokovno podporo pri uvajanju naprednih komunikacijskih sistemov.

- ▶ Integracija radijskih omrežij
- ▶ Načrtovanje in projektiranje
- ▶ Vzdrževanje radijske opreme
- ▶ Odziven in zanesljiv servis
- ▶ Možnost najema in brezplačnega testiranja radijske opreme

Konkurenčna prednost našega podjetja je specializiran kader, ki se redno izobražuje in sledi novitetam.

Našim naročnikom nudimo sodobne, vrhunske in kvalitetno opravljene storitve.

MEDITERRANEAN SHIPPING COMPANY

POZDRAV SPONZORJEV
GREETINGS OF OUR SPONSORS

MSC Mediterranean Shipping Company (MSC) je globalni vodja na področju kontejnerskega ladijskega prevoza in integrirane logistike z močno in dolgoletno prisotnostjo v Sloveniji. MSC Slovenija, ki deluje v Kopru od leta 2003, predstavlja ključno intermodalno vstopno točko, ki povezuje globalne pomorske storitve z obsežnimi kopenskimi transportnimi potmi po Srednji in Vzhodni Evropi.

MSC Slovenija z ekipo predanih logističnih strokovnjakov zagotavlja nemoteno in zanesljivo usklajevanje celotne dobavne verige. Z izkoriščanjem strateške lege Luke Koper MSC nudi tedenske povezave do ključnih destinacij v vzhodnem Sredozemlju ter učinkovit dostop do globalnih trgovskih poti. S 30-odstotnim tržnim deležem ima MSC Slovenija pomembno vlogo pri zagotavljanju nemotenih in učinkovitih multimodalnih transportnih tokov.

Kot del globalnega omrežja MSC, ki povezuje 520 pristanišč, je temelj MSC Slovenija močna lokalna strokovnost, ki jo podpira ena najzmogljivejših logističnih infrastruktur na svetu. Multimodalno omrežje MSC združuje cestni, železniški in pomorski promet ter zagotavlja zanesljive, celovite logistične rešitve, prilagojene potrebam vašega poslovanja.

MSC upravlja več kot 1.000 ladij na 300 globalnih linijah, ki pristajajo v 520 pristaniščih po svetu. Skupaj z več kot 100 terminali v okviru vseh družb skupine MSC omogoča to omrežje nemoten pretok tovora med celinami.

MSC ima 675 pisarn v 155 državah z več kot 200.000 zaposlenimi na ladjah in na kopnem, katerih cilj je ohranjati pretok svetovne trgovine. Vsako leto MSC prepelje več kot 30 milijonov TEU in povezuje podjetja vseh velikosti s trgi po svetu.

»Prisotnost MSC v Kopru našim strankam zagotavlja hitro, zanesljivo in strateško umeščeno intermodalno vstopno točko v globalno trgovino,« pravi Miloš Miličev, generalni direktor MSC Slovenija.

MSC Mediterranean Shipping Company (MSC) is a global leader in container shipping and integrated logistics, with a strong and long-standing presence in Slovenia. Operating in Koper since 2003, MSC Slovenia serves as a vital intermodal gateway, linking global maritime services with extensive inland transport routes across Central and Eastern Europe.

Supported by a team of dedicated logistics professionals, MSC Slovenia ensures smooth and reliable coordination throughout the supply chain. Leveraging the strategic position of the Port of Koper, MSC provides weekly connections to key East Mediterranean destinations and efficient access to global trade lanes. With a 30% market share, MSC Slovenia plays a crucial role in ensuring smooth and efficient multimodal transport flows.

As part of MSC's global network connecting 520 ports, MSC Slovenia builds on strong local expertise supported by one of the world's most powerful logistics infrastructures. MSC's multimodal network combines road, rail and sea, delivering reliable, end-to-end logistics solutions tailored to your business needs.

MSC operates over 1,000 vessels on 300 global routes, calling at 520 ports worldwide. Together with more than 100 terminals across all MSC Group entities, this network enables seamless cargo movement across continents.

MSC's presence spans 675 offices in 155 countries, supported by a team of over 200,000 people on board and ashore, all working towards the same mission: keeping global trade moving. Each year, MSC carries more than 30 million TEUs, connecting businesses of all sizes with markets around the world.

"MSC's presence in Koper provides our clients with a fast, reliable and strategically positioned intermodal gateway to global trade," says Miloš Miličev, Managing Director, MSC Slovenia.

Zlati sponzor | Golden Sponsor

Zaupajte svoj tovor strokovnjakom

Intermodalni promet se je v Sloveniji začel že leta 1974 z uvedbo prvega oprtnega vlaka iz Ljubljane v München. Od leta 1989 Adria kombi skrbi za razvoj kombiniranega (intermodalnega) prometa cesta – železnica. V več kot 35. Letih se je podjetje razvilo v enega največjih neodvisnih ponudnikov intermodalnih prevozov v Jugovzhodni Evropi. Skupaj s partnerji zagotavlja mrežo vlakovnih povezav do 72 terminalov v največjih evropskih industrijskih centrih. V letu 2025 je družba prepeljala preko 280.000 TEU.

Zaveze članic EU po 55% znižanju porabe energije do leta 2030 in ničelni ogljikovodis do 2050 nas silijo k spremembi ustaljenih vzorcev. Evropsko blago, ki se danes prevaža po evropskih cestah, bo v prihodnje gravitiralo na železnico, ko se bodo zaključila vsa velika infrastrukturna dela železniškega omrežja po Evropi. Blago široke potrošnje, ki prihaja v EU iz drugih kontinentov, predvsem iz Azije, se običajno kontejnerizira že na azijskem kontinentu, kar omogoča prevoz po EU bodisi s tovornjaki bodisi z železnico.

Dabise lahko tako lokalni, kot tudi globalni igralci v logistiki odločali o ustreznem načinu transporta, ki sovpada z okoljskimi zavezami EU, so potrebna verodostojna, dostopna in zanesljiva IT orodja. Digitalizacija vseh procesov spreminja podjetje v log-tech. Uporaba umetne inteligence povečuje učinkovitost in zmanjšuje stroške. Z vsemi dobavitelji in večjimi kupci se izmenjuje podatke elektronsko.

Vsako leto podjetje širi mrežo povezav in uvaja nove linije. V letu 2026 nameravamo v intermodalno omrežje Adria kombi dodati tudi Italijo.

Rely on Professionals

Intermodal transport in Slovenia began as early as 1974 with the introduction of the first backpack train from Ljubljana to Munich. Since 1989, Adria kombi has been taking care of the development of combined (intermodal) road-rail transport. In more than 35 years, the company has developed into one of the largest independent intermodal transport providers in Southeast Europe. Together with partners, it provides a network of train connections to up to 72 terminals in Europe's largest industrial centers. In 2025, the company transported over 280.000 TEUs.

The commitments of EU members to a 55% reduction in energy consumption by 2030 and a zero carbon footprint by 2050 force us to change established patterns. European goods, which are transported on European roads today, will gravitate to the railways in the future, when all major infrastructure works of the glandular network across Europe are completed. Consumer goods that come to the EU from other continents, especially from Asia, are usually containerized already on the Asian continent, which enables transport across the EU either by truck or by rail.

In order for both local and global players in logistics to decide on the appropriate mode of transport that coincides with the EU's environmental commitments, credible, accessible and reliable IT tools are needed. Digitization of all processes turns the company into log-tech. The use of artificial intelligence increases efficiency and reduces costs. Data is exchanged electronically with all suppliers and major customers.

Every year, the company expands its network of connections and introduces new lines. In 2026, we plan to add connections to Italy to the Adria Kombi intermodal network.

Zlati sponzor | Golden Sponsor

ENNA Logic je logistično podjetje, ustanovljeno leta 2019, ki zagotavlja celovite logistične storitve s prilagojenimi multimodalnimi rešitvami. Z uporabo sodobnih tehnologij, kot je GPS-sledenje vagonom in lokomotivam, lahko vsi deležniki v dobavni verigi v realnem času spremljajo gibanje vlakov in tovara, kar zmanjšuje tveganje za izgube in operativne napake. Skupaj s partnerjem APM Terminals je ENNA Logic zgradil in upravlja Rijeka Gateway, najsodobnejši kontejnerski terminal v jadranski regiji. Terminal je začel obratovati septembra 2025 in predstavlja največji zasebno financiran infrastrukturni projekt na Hrvaškem. Prva faza vključuje 400 metrov obale, globino 20 metrov in letno zmogljivost 650.000 TEU, z načrti za širitev zmogljivosti na več kot en milijon TEU. Novi terminal zagotavlja strateško pomemben položaj Rijeke in Hrvaške kot ključnega logističnega vozlišča za Srednjo in Vzhodno Evropo.

ENNA Logic is a logistics company founded in 2019, providing comprehensive logistics services through tailored multimodal solutions. By leveraging modern technologies, such as GPS tracking of wagons and locomotives, all stakeholders in the supply chain can monitor the movement of trains and cargo in real time, reducing the risk of loss and operational errors. Together with its partner APM Terminals, ENNA Logic has built and operates Rijeka Gateway, the most advanced container terminal in the Adriatic region. The terminal began operations in September 2025 and is the largest privately funded infrastructure project in Croatia. Phase one includes 400 metres of quay, a 20-metre depth, and an annual capacity of 650,000 TEU, with expansion plans in place to increase capacity beyond one million TEU. The new terminal secures a strategically important position for Rijeka and Croatia as a key logistics gateway to Central and Eastern Europe.

Zlati sponzor | Golden Sponsor

Skupina Intereuropa je vodilni ponudnik celovitih logističnih rešitev v jugovzhodni Evropi. Z lastno logistično infrastrukturo in razvejano mrežo podjetij v Sloveniji, na Hrvaškem, v Bosni in Hercegovini, Srbiji, Severni Makedoniji, Črni gori, na Kosovu, v Albaniji in v Ukrajini zagotavljamo storitve s področja kopenskega, pomorskega in zračnega prometa, skladiščenja, distribucije ter carinskih in drugih logističnih storitev. Različne vrste blaga skladiščimo, distribuiramo in prevažamo v vseh geografskih smereh ter poskrbimo za nemoten pretok blaga od proizvajalca do končnega kupca. Dolgoletna prisotnost na trgih jugovzhodne Evrope predstavlja našo ključno konkurenčno prednost. Kot logistični operater sodelujemo s številnimi mednarodnimi podjetji, ki svoje blagovne tokove usmerjajo prek regije. Nudimo tudi storitve projektne logistike ter skupaj s strankami analiziramo njihove poslovne potrebe in oblikujemo optimalne dolgoročne logistične rešitve.

The Intereuropa Group is a leading provider of comprehensive logistics solutions in South-Eastern Europe. With its own logistics infrastructure and a strong network of companies across Slovenia, Croatia, Bosnia and Herzegovina, Serbia, North Macedonia, Montenegro, Kosovo, Albania and Ukraine, the Group delivers land, sea and air transport, warehousing, distribution, customs and related logistics services. A wide range of goods is efficiently stored, distributed and transported in all geographical directions, ensuring a smooth flow of goods from manufacturer to end customer. Intereuropa's long-standing presence in the South-Eastern European markets is a key competitive advantage. The Group acts as a logistics partner for numerous international companies and, also provides project logistics services, working closely with customers to develop optimal long-term logistics solutions.

kardex

Globalni partner za intralogistične rešitve

Kardex podpira 3PL ponudnike in distribucijske centre pri razširljivem avtomatiziranju skladiščenja in komisioniranja – od osnovne avtomatizacije do integriranih, visoko zmogljivih sistemov. Z modularnimi tehnologijami, inteligentno programsko opremo in storitvami življenjskega cikla izboljšujemo izrabo prostora, natančnost komisioniranja in pretočnost. Enak pristop proizvajalcem omogoča postopno avtomatizacijo oskrbe materiala in komisioniranja glede na rast potreb.

Ključne prednosti:

- prilagodljiva kapaciteta za konice in nove stranke
- izboljšani procesi na več lokacijah
- integracija z obstoječimi WMS/WES sistemi
- proizvajalčeva podpora skozi celoten življenjski cikel

Kardex je tudi najhitreje rastoči partner AutoStore™, ki zagotavlja prilagodljive in modularne rešitve za visokogostotno skladiščenje in izpolnjevanje naročil. Skupina Kardex zaposluje približno 2.900 ljudi v več kot 30 državah.

Global partner for intralogistics solutions

Kardex supports 3PL providers and distribution centers in scaling warehouse storage and picking, from entry-level automation to integrated, high-throughput systems. Kardex combines modular technologies, intelligent software, and life cycle services to improve space utilization, picking accuracy, and throughput. The same approach helps manufacturers automate material supply and picking step by step as requirements grow.

Key benefits:

- Flex capacity for peaks and new customers
- Improved workflows across sites
- Integrate with existing WMS/WES
- Manufacturer-backed lifecycle service

Kardex also acts as the fastest-growing AutoStore™ partner, delivering flexible and modular high-density storage and order fulfilment solutions. The Kardex Group employs around 2,900 people in over 30 countries.

Luka Koper, pristaniški in logistični sistem, d.d. je delniška družba, ki razvija in upravlja Luko Koper, edino slovensko tovarno morsko пристanišče. Osnovna dejavnost podjetja je izvajanje pretovornih in skladiščnih storitev za vse vrste blaga, ki jih dopolnjujejo z vrsto dodatnih storitev. Podjetje upravlja vseh 12 specializiranih terminalov, kjer med drugim pretovarjajo kontejnerje, avtomobile, različne projektne, hlajene, sipke, razsute in tekoče tovore.

V prihodnjem petletnem obdobju bo poslanstvo Luke Koper še naprej temeljilo na zagotavljanju kakovostnih pristaniških storitev, skladnih s smernicami trajnostnega razvoja – s ciljem postati prva izbira med pristanišči na evropski južni transportni poti. Načrtovan razvoj temelji na štirih izhodiščih, ki predvidevajo povečanje infrastrukturnih kapacitet in zmogljivosti, pospešeno uvajanje koncepta pametnega pristanišča, zagotovitev ustrezne kadrovske strukture ter skrb za trajnostne vidike in zmanjševanje negativnih vplivov na okolje in družbo. Luka Koper še naprej ohranja model večnamenskega pristanišča, ki je ena ključnih konkurenčnih prednosti družbe.

Luka Koper, port and logistic system, d.d. is a public limited company which develops and manages the Port of Koper, the only Slovenian seaport. The company operates all 12 specialized terminals in the multipurpose port, handling all types of cargo: containers, cars and RO-RO, various general cargo products, dry bulk, liquid bulk.

Over the next five years – as defined in the strategic plan until 2028 - the mission of Luka Koper will continue to be based on providing reliable, high-quality port services in line with sustainable development guidelines, with the aim of becoming the first choice among ports on the European southern transport route. Its planned development is based on four starting points: increasing infrastructure capacity and capability, accelerating the introduction of the smart port concept, ensuring adequate staffing, and taking care of sustainability aspects and reducing negative impacts on the environment and society. The multi-purpose port model, which is one of the company's key competitive advantages, continues to be maintained.

INTERNATIONAL HACKATHON

Generalni sponzor | General Sponsor

Frigologo je vodilno slovensko podjetje na področju logistike prehranskih izdelkov v hladni verigi, z več kot 20-letnimi izkušnjami delovanja po Evropi. Z ekipo več kot 60 vrhunskih strokovnjakov predstavlja zanesljivega in profesionalnega poslovnega partnerja, ki zagotavlja celovite logistične rešitve po vsej Evropi in Balkanu.

Začetki podjetja segajo v leto 1968, ko je Franc Erčulj začel s prevozom mlečnih izdelkov. Podjetje sta kasneje prevzela njegova sinova Aleš in Franc mlajši. Pomemben mejnik je bil dosežen leta 2002, ko sta v partnerstvu z avstrijskim podjetjem Frigologo GmbH ustanovila podjetje Frigologo, d.o.o., ki ponuja celovite rešitve na področju logistike prehranskih izdelkov v hladni verigi.

Podjetje deluje v vseh državah Evropske unije (Avstrija, Belgija, Bolgarija, Hrvaška, Ciper, Češka, Danska, Estonija, Finska, Francija, Nemčija, Grčija, Madžarska, Irska, Italija, Latvija, Litva, Luksemburg, Malta, Nizozemska, Poljska, Portugalska, Romunija, Slovaška, Slovenija, Španija, Švedska, Združeno kraljestvo) ter na Balkanu (Albanija, Bosna in Hercegovina, Bolgarija, Hrvaška, Grčija, Kosovo, Severna Makedonija, Črna gora, Srbija).

Frigologo zagotavlja celovite logistične rešitve hladne verige, ki povezujejo proizvodnjo s končnim kupcem. Podjetje je specializirano za cross-docking operacije, ki omogočajo učinkovito pretovarjanje in distribucijo domačega in mednarodnega blaga, vključno z dostavami na težje dostopne lokacije.

Frigologo upravlja sodoben logistični center s temperaturno nadzorovanim skladiščenjem od -20°C do $+4^{\circ}\text{C}$, kar omogoča popolno sledljivost procesov in nadzor s pomočjo naprednih sistemov sledenja. Z najodobnejšim voznim parkom Frigologo zagotavlja zanesljiv transport po Sloveniji, Evropi in Balkanu v skladu s standardi HACCP in IFS. Temperaturni režimi med transportom segajo od -25°C do $+4^{\circ}\text{C}$, kar zagotavlja popolno ohranjenost izdelkov.

Frigologo omogoča popolno sledljivost blaga, spremljanje v realnem času ter celovito podporo pri uvozno-izvozni dokumentaciji in skladnosti z zakonodajo.

Distribucijska mreža podjetja pokriva večino slovenskega trga in dosega več kot 1.200 dostavnih mest, vključno z vsakodnevnimi dostavami na oddaljene lokacije.

Frigologo is the leading Slovenian company in the field of cold chain food logistics with a 20-year-long tradition in Europe. With a staff of more than 60 top experts, they are your reliable and professional business partner in the field of complete logistic solutions that operates all across Europe and the Balkans.

The beginnings of company, which is currently the leading Slovenian company in the field of cold chain food logistics, date back to the year 1968, when Franc Erčulj began transporting dairy products, and the company was later taken over by his sons Aleš and Franc junior. They made a significant leap in 2002, when they, in partnership with the Austrian company Frigologo GmbH, founded the company Frigologo, d.o.o., which offers complete solutions in the field of cold chain food logistics.

Company operates in all European Union countries (Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, United Kingdom) and in the Balkans (Albania, Bosnia and Herzegovina, Bulgaria, Croatia, Greece, Kosovo, Macedonia, Montenegro, Serbia).

Frigologo provides end-to-end cold chain logistics solutions, connecting production with the final customer. Frigologo specializes in cross-docking operations, enabling efficient reloading of domestic and international goods, including deliveries to less accessible locations. The company operates a modern logistics centre with temperature-controlled storage from -20°C to $+4^{\circ}\text{C}$, ensuring full process visibility and control through advanced tracking systems.

With a state-of-the-art fleet, Frigologo ensures reliable transport across Slovenia, Europe and the Balkans, in compliance with HACCP and IFS standards. Temperature regimes in transport range from -25°C to $+4^{\circ}\text{C}$, maintaining full product integrity.

Frigologo provides full traceability of goods, real-time monitoring and comprehensive support for import/export documentation and regulatory compliance.

Its distribution network covers the majority of the Slovenian market, reaching over 1,200 delivery points, including daily deliveries to remote locations.

Intralogistične rešitve od enega ponudnika

Pogovorite se s Kordex strokovnjaki za vse vaše intralogistične in avtomatizacijske potrebe

V današnjem poslovnem okolju se podjetja soočajo z omejenim skladiščnim prostorom, kompleksnimi zalogovnimi sistemi in potrebo po večji učinkovitosti. V podjetju Kordex te izzive razumemo in jih naslavljamo z razširljivimi in prilagodljivimi rešitvami, ki podpirajo rast ter se razvijajo skupaj z vašim poslovanjem.

UVOD V LOGISTIČNI KONGRES 2026 INTRODUCTION INTO LOGISTICS CONGRESS 2026

WEDNESDAY, APRIL 8, 2026

EMERALD HALL

8.30 ARRIVAL AND REGISTRATION

9.30 OPENING OF THE CONGRESS AND AWARD CEREMONY

9.40 Introductory addresses

Igor Žula, President, Slovenian Logistic Association, SLA
Miloš Miličev, MSC Mediterranean Shipping Company
dr. Markus Mau, President, European Logistic Association, ELA

10.10 Award Ceremony: Logistician of the Year and Lifetime Achievement Award in Logistics

10.30 PLENUM: THE FUTURE OF LOGISTICS

10.30 MSC's contribution to integrated logistics and connectivity in Slovenia

Alkan Aličik, MSC Mediterranean Shipping Company

10.50 NETWORKING BREAK

Sponsor:

PARALLEL PROGRAMME: EMERALD HALL

11.35 Significant change in global logistics - can we adapt?

Vincent Iacopella, Executive Vice President, Growth & Strategy, President Government and Trade Relations, Alba Wheels Up International, LLC

11.55 Open Collaboration in European Logistics. Collaborate where possible, compete where it matters.

dr. David Saive, Legal Product Owner, Open Logistics Foundation

12.15 Future of Slovenian logistic in front of significant global changes

dr. Igor Jakomin, Business Strategist, Visionary Leader, Lecturer, Change Partner, In-Quadra

12.35 ROUND TABLE DISCUSSION: THE FUTURE OF LOGISTICS

Moderator:

dr. Igor Jakomin, Business Strategist, Visionary Leader, Lecturer, Change Partner, In-Quadra

With:

Miloš Miličev, MSC Mediterranean Shipping Company

dr. David Saive, Legal Product Owner, Open Logistics Foundation

Gregor Belič, Board member, Luka Koper d.d.

13.20 LUNCH & NETWORKING BREAK

PLENUM: ARTIFICIAL INTELLIGENCE FESTIVAL

14.35 The Motorola Solutions Ecosystem: AI-driven interoperability for next-generation logistics and critical operations (Best Practice Business Case)

Marko Marković, IT Director, Belgrade Nikola Tesla Airport

Nikola Cvetkovski, Channel Account Manager for South East Europe, Motorola Solutions

14.55 Delivery point optimization for greater efficiency (Best Practice Business Case)

Peter Milinović, Director of Technology, Network and Logistics. Pošta Slovenije d.o.o.

dr. Luka Bradeško, CEO and Founder, Solvesall d.o.o.

15.15 Digital transformation of complex small-series manufacturing at Adria Mobil (Best Practice Business Case)

Matjaž Marovt, Director of Industrial Division Adria Mobil, d.o.o.

Veljko Goleš, Director of Logistics, Adria Mobil, d.o.o.

15.35 Inventory data reconciliation problem – 1,000 times more efficient and 80% less costly with AI agent than a team of consultants (Best Practice Business Case)

Andrew Mellville, Co-founder and Managing Director, Europe, Mission Control AI

15.55 NETWORKING BREAK

16.35 Digitalization and AI - from planning to operation at the BMW main plant in Munich (Best Practice Business Case)

Mario Trautner, Digitalisation Specialist, BMW

dr. Thomas Irrenhauser, Project Manager for Industry 4.0 and Innovations, BMW

16.55 History and real data for demand prediction, stock optimisation and smart (re)distribution of goods around the N Sport stores (Best Practice Business Case)

Dragana Klepić, Regional Business Development Manager, BE-terna

17.15 ROUND TABLE DISCUSSION: HOW TO SELECT, START AND RUN THE AI IMPLEMENTATION PROJECTS?

Moderator:

dr. Jernej Pintar, CEO

Tehnološki park Ljubljana d.o.o.

With:

Nikola Cvetkovski, Channel Account Manager for South East Europe Motorola Solutions

Luka Bradeško, CEO and Founder, Solvesall d.o.o.

Matjaž Marovt, Director of Industrial Division Adria Mobil, d.o.o.

Andrew Mellville, Co-founder and Managing Director, Europe, Mission Control AI

Mario Trautner, Digitalisation Specialist, BMW

Božidara Cvetković, AI team leader, BE-terna

17.45 NETWORKING BREAK

19.30 EVENING EVENT

PARALLEL PROGRAMME: AURORA HALL

INTERNATIONAL ACADEMIC SYMPOSIUM

11.00 REGISTRATION AND WELCOME COFFEE

11.15 Welcome and opening remarks

Igor Žula, president, Slovenian Logistics Association SLA

11.25 Introductory remarks

Nicole Mau, MAU Consulting

11.30 European Supply Chain Risk Indicator (ESCRI)

FH-Prof. DI Dr. Veit Kohnhauser, University of Applied Sciences Upper Austria

11.50 From Supply Chain to Value Network: Digital Coordination of Distributed Production through Simulation and AI

Sanja Bojic, Faculty of Technical Sciences, University of Novi Sad

12.10 Synthetic Capital Advancing a theory for a new form of Intellectual Capital

Andrew Melville, Mission Control AI PBC

12.30 Automating inquiry handling in logistics using Large Language Models: A practical AI-driven approach for decision support and process integration

Janis Purk, Institute of Transport Logistics, TU Dortmund University

12.50 NETWORKING & PHOTO BREAK

13.20 LUNCH AND NETWORKING BREAK

14.30 Circularity and Sustainability of AI in Industry 4.0 and 5.0: Recent Research Directions

Mirjana Lazarević, Faculty of Logistics, University of Maribor
Matevž Obrecht, Faculty of Logistics, University of Maribor

14.50 Material flow analysis of uniform systems under incomplete reverse logistics data: A case of a security-sensitive institutional organization

Matjaž Hudournik, Faculty of Logistics, University of Maribor

15.10 Data Sovereignty and the Evolution of AI Governance in the European Union – A Supply Chain Perspective

Prof. Dr. Peter Holm, Provadis University of Applied Sciences

15.30 COFFEE BREAK

15.45 Semiconductors as Critical Infrastructure: Logistics, Resilience, and the Challenges for European Industrial Policy

Gerald Schönwetter, University of Applied Sciences Upper Austria, Logistikum, Steyr

16.05 From Legal Risk Allocation to Operational Disruption: Bridging Incoterms, Maritime Piracy, and Supply Chain Resilience

Marina Nikšić, Faculty of Logistics, University of Maribor

16.25 Optimizing Biotechnology Supply Chains: Balancing AI and Traditional Tools to Overcome Global Regulatory Challenges

Kenneth J. Xu, E.H.E. Europa Hochschule EurAKA CH

16.45 CLOSING REMARKS

Tomislav Letnik, University of Maribor

19.30 EVENING EVENT

PARALLEL PROGRAMME: EMERALD HALL

9.00 ARRIVAL AND REGISTRATION

9.30 OPENING OF THE 2ND DAY

9.30 Introductory addresses

Robert Sever, CEO, Chamber of Commerce and Industry of Slovenia, Transport Association
Marko Lotrič, president, National Council of the Republic of Slovenia

9.50 Talum's transformation from a commodity manufacturer to a solutions provider

Marko Drobnič, President of the Management Board, TALUM d.d. Kidričevo

PLENUM:
WE HAVE SUCCEEDED.
HOW DID WE ACHIEVE THIS?

10.10 Short Success Story: Nelt Co d.o.o.

Vuk Mijanović, Logistics Development Director, Nelt Co d.o.o.

10.25 Short Success Story: T.L.Sirk d.o.o.

Andrej Sirk, CEO, T.L.Sirk d.o.o.

10.40 Short Success Story: BTC Logistics Centre

Robi Košir, Director of BTC Logistics Centre Business Unit, BTC d.d.

10.55 NETWORKING BREAK

11.35 Short Success Story: ENNA LOGIC d.o.o.

Ana Soldo, President of the Board, ENNA LOGIC d.o.o.

11.50 Short Success Story: Milšped Group

Kolja Štemberger, CEO, Milšped transport in logistika d.o.o. Slovenia

12.05 ROUND TABLE DISCUSSION:
HARD TIMES FOR LOGISTICS.
WHERE WE SEE THE OPPORTUNITY?
HOW TO ADAPT?

Moderator:

dr. Jernej Pintar, CEO
 Tehnološki park Ljubljana d.o.o.

With:

Vuk Mijanović, Logistics Development Director, Nelt Co d.o.o.

Andrej Sirk, CEO, T.L.Sirk d.o.o.

Kolja Štemberger, CEO, Milšped transport in logistika d.o.o.

Ana Soldo, President of the Board ENNA LOGIC d.o.o.

Samo Kastelic, Member of the Board, Intereuropa d.d.

13.05 LUNCH & NETWORKING BREAK

PLENUM:
IOT IN INDUSTRY AND LOGISTICS

14.20 Smart lighting is the foundation of a stable IoT ecosystem in logistics – and it brings tremendous savings (Best Practice Business Case)

Matic Pilko, regional logistics manager, HOFER trgovina d.o.o.

Jani Novljan, CEO, EkoLuks d.o.o.

14.40 We halved lead times and doubled productivity (BVL AWARD Winner, Best Practice Case)

Matthias Fischer, COO / Board Member – Operations Management, Strauss Group

15.00 Total logistics transformation with AutoStore & semi-automated high-bay warehouse Intro (Best Practice Business Case)

David Vesel, Logistics Manager, Intersocks d.o.o.

15.20 NETWORKING BREAK

16.00 Standardized data, better visibility: 2D codes in modern logistics (Best Practice Business Case)

Jožko Rosa, Head of the Procurement Warehouse INCOM d.o.o. (Leone)

Roko Staničič, IT Consultant, GS1 Slovenija
Damjan Zupančič, Director of the Logistics Development Unit, BTC Logistični center

16.20 ROUND TABLE DISCUSSION:
HOW TO RUN SUCCESSFUL
IOT PROJECTS?

Moderator:

dr. Jernej Pintar, CEO
 Tehnološki park Ljubljana d.o.o.

With:

Matthias Fischer, COO / Board Member – Operations Management, Strauss Group

David Vesel, Logistics Manager, Intersocks d.o.o.

Jožko Rosa, Head of the Procurement Warehouse INCOM d.o.o. (Leone)

Roko Staničič, IT Consultant, GS1 Slovenija

Damjan Zupančič, Director of the Logistics Development Unit, BTC Logistični center

Matic Pilko, Regionalni vodja logistike, HOFER trgovina d.o.o.

Jani Novljan, CEO, EkoLuks d.o.o.

PARALLEL PROGRAMME: AURORA HALL

9.00 TELEMATICS REGISTRATION & EXHIBITION WITH COFFEE & TEA

9.30 Introduction and opening remarks

Igor Žula, President, Slovenian Logistic Association SLA

**9.40 SECTION 1:
HOW AI IS TRANSFORMING
TELEMATICS FROM DATA COLLECTION
TO INTELLIGENT FLEET OPERATIONS**

**9.40 KEYNOTE: From Data Centres to AI
Factories: The Infrastructure Powering the
Next Generation of Logistics**

Vladimir Prodanovic, Principal Program Manager, NVIDIA

**10.20 AI in Action: Transforming Industries and
Redefining Telematics & Logistics**

Moderator:

Alenka Bezjak Mlakar, Founder, Telematics Conference & Expo

Guests:

Aliaksandr Kuushynau, Head of Wialon, Gurtam
Vladimir Prodanovic, Principal Program Manager, NVIDIA

10.55 NETWORKING COFFEE BREAK AND EXHIBITION

**11.35 SECTION 2:
CONNECTIVITY AS THE BACKBONE OF
SCALABLE TELEMATICS AND THE
INTERNET OF EVERYTHING**

**11.35 An overview of telematics and fleet
management industry in Europe & beyond**

Andrew Jackson, CEO, PAVE Insight

**11.55 Mobile connectivity evolution as a key
enabler of scalable telematics**

Elie Aad, Membership Product Consultant, GSMA

**12.15 Unified, connected & integrated platforms
= Fleet Management 2.0**

Sven Aulik, Director - International Partnerships, Fleetguru

**12.35 PANEL DISCUSSION: Connectivity as the
backbone of scalable telematics and the
Internet of Everything**

Moderator:

Andrew Jackson, CEO, PAVE Insight

Guests:

Sergej Agejev, Product owner, Teltonika Telematics

Elie Aad, Membership Product Consultant, GSMA

13.05 NETWORKING LUNCH BREAK AND EXHIBITION

**14.20 SECTION 3:
HOW EVS AND OEM PLATFORMS ARE
RESHAPING TELEMATICS, MOBILITY,
AND THE CONNECTED VEHICLE**

**14.20 Intelligent Service Orchestration through
collaboration between systems**

Søren Danielsen, Manager Digital Services, Schmitz Cargobull

**14.40 PANEL DISCUSSION: What are the biggest
challenges with OEMs?**

15.20 NETWORKING COFFEE BREAK AND EXHIBITION

**16.00 PEER-TO-PEER DISCUSSIONS: Where are
we going? The future of telematics
industry**

17.00 NETWORKING IN THE EXHIBITION AREA

FRIDAY, APRIL 10, 2026

PARALLEL PROGRAMME: MEDITERANEA HALL

9.30 NETWORKING

As part of the Logistics Congress 2026, we are creating a dedicated connecting experience for all participants, sponsors and speakers, culminating in individual meetings on Friday morning. For all those who want to take more than inspiration away from the Congress!

LET'S CONNECT:

9.30 BUSINESS BREAKFAST AT SLZ WELCOME POINT

10.00 Individual meetings with participants, sponsors and speakers

12.00 STANDING BANQUET AND NETWORKING BREAK

PARALLEL PROGRAMME: ADRIA HALL

9.00 INTERNATIONAL HACKATHON

Students of logistics, manufacturing, computer science, and mechatronics from various European faculties and beyond will work in mixed teams to solve real-world challenges from industry. Fresh ideas that could become solutions to tomorrow's challenges.

9.00 Opening remarks, presentation of the committee

9.15 Presentation of the projects

10.15 NETWORKING BREAK

10.45 Announcement of the winning project, award ceremony

12.00 STANDING BANQUET AND NETWORKING BREAK

LOGISTICS CONGRESS 2026 OFFICIAL ENDING

SEE YOU AGAIN IN 2027
April 7 – 9, 2027, here in Portorož!

*The organizer reserves the right to change the programme.

*Donosi
vrijednost,
svuda.*

GREEN EUROPEAN GATEWAY

OUR MISSION

To provide reliable and high quality port services, in line with sustainable development guidelines.

OUR VISION

To become the first choice among ports on the southern European transport route by creating added value for our customers.

LUKA KOPER

Port of Koper

KEMARO K900

makom

Avtonomni pometalni robot za logistične centre
Naj logistika teče. Prah prepustite robotu.

Ključne prednosti

- **Avtonomno delovanje 24/7** – čiščenje tudi izven delovnega časa
- **Do 50 % nižji stroški čiščenja**
- **Pametna LiDAR navigacija** – varno zaznava in obide ovire
- **Kompaktna višina 35 cm** – čisti pod regali in stroji
- **Plug & Play** – brez zahtevne namestitve
- **Švicarska kakovost**

- **Do 5 ur delovanja**
- **Do 1.000 m²/h**
- **35 l zbiralnik za umazanijo**
- **Naklon do 12 %**

KEMARO K900 je zasnovan za skladišča, distribucijske centre in proizvodne hale, kjer je čistoča ključna za varnost, zaščito opreme in nemoten potek procesov.

Možnost preizkusa na vaši lokaciji:

Skenirajte QR kodo in se dogovorite za predstavitev.

Alkan Aličik

Managing Director

MSC Mediterranean Shipping Company

Alkan Aličik se je rodil leta 1976 v Istanbulu. Leta 1998 je diplomiral na Fakulteti za poslovne vede v Izmirju. Leta 2003 se je pridružil podjetju MSC Mediterranean Shipping Company kot prodajni predstavnik. V družbi MSC Turkiye je opravljal funkciji vodje podružnice MSC Antalya in vodje globalnih ključnih strank v MSC Turčija. Leta 2015 je bil imenovan za generalnega direktorja MSC Georgia, do leta 2026 pa je bil tudi član upravnega odbora MEDLOG Transport & Logistics Georgia. V času svojega delovanja v Gruziji je imel ključno vlogo pri povezovanju Južnega Kavkaza in Srednje Azije z ostalim svetom.

Alkan Aličik was born in 1976 in Istanbul. He graduated from the Faculty of Business Administration in Izmir in 1998. He joined MSC Mediterranean Shipping Company in 2003 as a Sales Representative. He served as MSC Antalya Branch Manager and MSC Turkey Global Accounts Manager at MSC Turkiye. He was appointed Managing Director of MSC Georgia in 2015 and was also a Board Member of MEDLOG Transport & Logistics Georgia until 2026. During his tenure in Georgia, he played key roles in connecting the South Caucasus and Central Asia to the rest of the world.

Miloš Miličev

Non-Executive Chairman

MSC Mediterranean Shipping Company

Miloš Miličev je vodilni strokovnjak v pomorski industriji z več kot 30-letnimi izkušnjami na področju ladijskega prevoza, pristaniških operacij in logističnega upravljanja. Rodil se je leta 1972 v Ljubljani. Študiral je na Fakulteti za pomorstvo in promet v Portorožu ter svojo kariero v pomorskem sektorju začel leta 1994.

Leta 1995 se je pridružil agenciji Sealand v Kopru kot vodja operacij, to funkcijo pa je opravljal tudi po prehodu družbe v Maersk Sealand leta 1999, kasneje pa je zasedel položaj vodje podružnice. V tem obdobju je aktivno sodeloval pri razvoju in uvajanju operativnih ter informacijskih sistemov, tesno sodeloval z mednarodnimi ekipami ter v projektih v Kopenhagenu in Pragi.

Leta 2003 je v Kopru ustanovil Urad MSC Mediterranean Shipping Company, kjer od takrat opravlja funkcijo generalnega direktorja. Pod njegovim vodstvom je Urad okrepil svoj tržni položaj in operativno delovanje ter prispeva k nadaljnji širitvi prisotnosti družbe MSC v regiji.

Miloš Miličev is a maritime industry executive with over 30 years' experience in shipping, port operations, and logistics management. Born in Ljubljana in 1972, he attended the Faculty of Maritime Studies and Transport in Portorož, Slovenia, and began his career in the maritime sector in 1994.

He joined the Sealand agency in Koper in 1995 as Operations Manager and continued in this leadership role after the company's transition to Maersk Sealand in 1999, later serving as Branch Manager. During this time, he played an active role in developing and implementing operational and IT systems, working closely with international teams and contributing to projects in Copenhagen and Prague.

In 2003, he established the MSC Mediterranean Shipping Company office in Koper and has since served as its Managing Director. Under his leadership, the office has strengthened its market position and operational performance, supporting the continued growth of MSC's presence in the region.

> PREDAVANJE: LECTURE:

Prispevek MSC k integrirani logistiki in poveztljivosti v Sloveniji

Predavanje bo poudarilo integrirane logistične zmogljivosti MSC in strateški pomen Kopra kot ključne jadranske vstopne točke. Obravnavalo bo trenutne izzive dobavne verige, prehod k odpornim in regionaliziranim logističnim omrežjem ter vse večjo vlogo multimodalnih rešitev. Udeleženci bodo odkrili tudi, kako digitalizacija in trajnost, z razogljčenjem in bolj zelenim prometom, oblikujejo prihodnost globalne logistike.

MSC's Contribution to Integrated Logistics and Connectivity in Slovenia

The lecture will highlight MSC's integrated logistics capabilities and the strategic importance of Koper as a key Adriatic gateway. It will address current supply chain challenges, the shift toward resilient and regionalized logistics networks, and the growing role of multimodal solutions. Participants will also discover how digitalization and sustainability, through decarbonization and greener transport are shaping the future of global logistics.

Program | Programme

Vincent Iacopella

**Executive Vice President, Growth & Strategy,
President Government and Trade Relations**
Alba Wheels Up International, LLC

Več kot 30 let je Vince upravljal globalne odnose s strankami na transpacifiških trgih ter vodil čezmejni uvoz in izvoz, ki ga ameriške vladne agencije, kot so Carinska in mejna zaštita ZDA (CBP), Ameriška agencija za hrano in zdravila (FDA) in druge, obravnavajo kot trgovinsko občutljivega. Kot član višjega vodstva podpira strateški razvoj podjetja, spodbuja rast, združitve in prevzeme, širitev na nastajajoče trge ter razvoj novih storitvenih področij, kot je e-trgovina. Vince je licencirani carinski posrednik, nekdanji predsednik Združenja carinskih posrednikov in špediterjev v Los Angelesu, predsednik Sveta pacifiške obale za carinske posrednike in špediterje ter član upravnega odbora Gospodarske zbornice območja Los Angelesa in odbora guvernerjev Ameriškega združenja izvoznikov in uvoznikov (AAEI).

For over 30 years, Vince managed global customer relationships in Transpacific markets, handling cross-border imports and exports deemed trade-sensitive by US government agencies such as CBP, FDA, and others. He supports strategic development as part of the senior management team, driving growth, mergers and acquisitions, expansion into emerging markets, and new service lines such as e-commerce. Vince is a licensed Customs Broker, past president of the Los Angeles Customs Brokers and Forwarders Association, Chairman of the Pacific Coast Council of Customs Brokers and Freight Forwarders, and serves on both the Board of the Los Angeles Area Chamber of Commerce and the Board of Governors of the American Association of Exporters and Importers (AAEI).

David Saive

**Founder and Owner of Tug & Tow® | Legal
Legal Product Owner at the Open Logistics
Foundation**

Open Logistics Foundation

Dr. David Saive, LL.M., je odvetnik v Hamburgu, ki svetuje državam, mednarodnim organizacijam in podjetjem na področju digitalizacije mednarodne trgovine, logistike, prometa in financiranja trgovine. Je specialist za digitalne trgovinske in prevozne dokumente ter za Zakon o podatkih EU. Ustanovil je podjetje Tug & Tow® | Legal, deluje kot posebni svetovalec pri Mednarodni trgovinski zbornici (ICC) Nemčije ter opravlja funkcijo Vodje razvoja pravnih produktov pri Fundaciji za odprto logistiko (OLF).

Dr David Saive, LL.M., is a Hamburg-based lawyer who advises states, international organisations, and companies on the digitalisation of international trade, logistics, transport, and trade finance. He specialises in digital trade and transport documents and the EU Data Act. He is the founder and owner of Tug & Tow® | Legal, serves as Special Advisor to ICC Germany, and is Legal Product Owner at the Open Logistics Foundation.

PREDAVANJE: LECTURE:

Odprto sodelovanje v evropski logistiki. Sodelujmo, kjer je to mogoče - tekmujmo, kjer je pomembno.

Prihodnost logistike v Evropi ne bo oblikovala le tehnologija, temveč tudi ekosistemi sodelovanja, ki združujejo konkurenčne udeležence na trgu, pravne strokovnjake in partnerje za izvedbo na podlagi skupnih standardov ter odprtokodnih rešitev. Fundacija za odprto logistiko (OLF) bo predstavila svojo pot od koncepta do operativne realnosti ter poudarila, kako lahko strukturirano sodelovanje omogoči interoperabilnost, učinkovitost in inovacije v dobavnih verigah.

Spoznali bomo izvirno zamisel Fundacije za odprto logistiko (OLF) in njeno ambicijo, da ustvari odprto podlago za digitalno logistiko, neodvisno od ponudnikov. Ključne dejavnosti fundacije so delavnice za razvoj idej, letni dogodek Dan odprtokodnih idej (OSID) in mreženje, ki širi sodelovanje tudi zunaj osnovnega članstva OLF. Dotaknili pa se bomo tudi usklajevanja konkurenčnih interesov v skupnih projektih, oblikovanja dejanskih standardov, ki koristijo širšemu logističnemu ekosistemu in hkrati ohranjajo komercialno razlikovanje.

Open Collaboration in European Logistics. Collaborate where possible – compete where it matters.

The future of logistics in Europe will be shaped not only by technology but also by collaborative ecosystems that unite competing market players, legal experts, and implementation partners around shared standards and open-source solutions. In this session, the Open Logistics Foundation (OLF) will present its journey from concept to operational reality and highlight how structured cooperation can unlock interoperability, efficiency, and innovation across supply chains.

We will cover the original idea behind OLF and its ambition to create an open, vendor-agnostic foundation for digital logistics. The key activities are Ideation Workshops, an annual event The Open Source Ideation Day and networking formats that extend cooperation beyond OLF's core membership. We will also talk about harmonising competing interests in shared projects, creating de-facto standards that benefit the wider logistics ecosystem while preserving commercial differentiation.

Igor Jakomin

**Business Strategist, Visionary Leader, Lecturer,
Change Partner**
In-Quadra

Igor Jakomin je priznan poslovni strateg in vizionarski voditelj z več kot tridesetletno kariero na področju logistike, sodobnih tehnologij in javnega sektorja. Deloval je kot direktor za Slovenijo ter regionalni direktor za Slovenijo, Hrvaško in Bosno in Hercegovino pri United Parcel Service (UPS), kjer je zagotavljal operativno odličnost in spodbujal rast na regionalni ravni. Kot glavni direktor več hčerinskih družb v okviru ugledne italijanske logistične skupine Samer je vodil razvojne strategije, ki so uspešno prispevale k širitvi trga in utrdile položaj skupine. V vlogi namestnika glavnega direktorja tehnološkega pionirja CargoX je dokazal svojo sposobnost povezovanja logistike z naprednimi blockchain rešitvami ter podjetje preoblikoval iz start-upa v zrelo korporativno družbo. Poleg tega je kot član nadzornih svetov v Luki Koper in BTC Terminalu Sežana pomembno prispeval k strateškemu odločanju in dolgoročni trajnosti teh organizacij.

Kot državni sekretar na Ministrstvu za promet je oblikoval ključne prometne in logistične politike ter prispeval k razvoju infrastrukture. Danes deluje kot partner za uvajanje sprememb izvršnim in vodstvenim kadrom v regiji, ki se soočajo z zahtevnimi izzivi vodenja, rasti, preobrazbe organizacij in osebnih odločitev ter spodbuja mlade talente k uresničitvi njihovega potenciala v programih, kot so Pegasus podjetniški center, Business Class Academy, Tovarna podjetmov, Inkubator Sežana in Labena Ventures.

Svoje bogate izkušnje deli tudi kot predavatelj in izredni profesor na uglednih univerzah doma in v tujini. Njegov doktorat znanosti s področja logistike potrjuje strokovno poglobljenost, s katero vpliva na razvoj poslovanja, tehnologije in izobraževanja na regionalni in mednarodni ravni.

Igor Jakomin is a renowned business strategist and visionary leader with over three decades of experience in logistics, modern technologies, and the public sector. As Country Director for Slovenia and Regional Director for Croatia and Bosnia and Herzegovina at United Parcel Service (UPS), he drove growth and operational excellence. As CEO of several subsidiaries within the Italian group Samer, he led market expansion, while at the technology company CargoX, as Deputy CEO, he successfully integrated logistics with blockchain technology, transforming the company from a start-up into a mature corporation. Additionally, as a member of the supervisory boards of the Port of Koper and BTC Terminal Sežana, he made significant contributions to strategic decision-making and the long-term sustainability of these organisations.

As State Secretary (Deputy Minister) at the Ministry of Transport, he shaped key transport and logistics policies and contributed to infrastructure development. He currently acts as a change partner to executives and senior leaders in the region, supporting them in navigating demanding challenges in leadership, growth, organisational transformation, and personal decision-making. In addition, he inspires young talent to realise their potential through programmes such as Pegasus Entrepreneurship Centre, Business Class Academy, Tovarna Podjemov, Sežana Incubator, and Labena Ventures.

He also shares his extensive expertise as a lecturer and associate professor at prestigious universities in both his home country and internationally. His PhD in logistics demonstrates his deep professional knowledge, which he uses to influence the development of business, technology, and education at regional and international levels.

> PREDAVANJE: LECTURE:

Prihodnost slovenske logistike pred pomembnimi globalnimi spremembami

Predavanje odpira razmislek o ključnih globalnih spremembah, ki bodo v prihodnjih letih oblikovale logistiko. V ospredje postavlja vprašanje, kako se lahko slovenska logistika pravočasno prilagodi ter izzive preoblikuje v priložnosti za večjo povezanost in konkurenčnost. Nagovor bo uvod v razpravo, ki bo povezala različne poglede in izkušnje ter iskala skupne usmeritve za prihodnost logistike.

The Future of Slovenian Logistics Amid Global Changes

The lecture opens up a reflection on the key global changes that will shape logistics in the coming years. It focuses on the question of how Slovenian logistics can adapt in a timely manner and transform challenges into opportunities for greater connectivity and competitiveness. The address will be an introduction to a discussion that will connect different views and experiences and seek common directions for the future of logistics.

Nikola Cvetkovski

Channel Account Manager for South East Europe
Motorola Solutions

Nikola Cvetkovski je vodja prodajnega kanala za jugovzhodno Evropo v podjetju Motorola Solutions s sedežem na Dunaju. Z več kot 12-letnimi izkušnjami na področju prodaje upravlja portfelj profesionalnih in komercialnih radijskih rešitev. Kot vodja ključnih pobud na področju javne varnosti in kritične infrastrukture se osredotoča na poslovno kritične komunikacije ter logističnemu sektorju pomaga zagotavljati zanesljivo, varno in nemoteno povezljivost.

Nikola Cvetkovski is a Channel Account Manager for South East Europe at Motorola Solutions, based in Vienna. With over 12 years of sales experience, he manages the Professional and Commercial radio portfolio. Having led major initiatives in public safety and critical infrastructure, Nikola focuses on business-critical communication, also helping the logistics sector achieve resilient, secure, and seamless connectivity.

> PREDAVANJE: LECTURE:

Ekosistem Motorola Solutions: interoperabilnost, podprta z umetno inteligenco, za logistiko in kritične operacije naslednje generacije

Predstavljena bo digitalna preobrazba Letališča Nikola Tesla Beograd ter prikaz, kako radijske postaje MOTOTRBO, video rešitve Avigilon z umetno inteligenco in osebne kamere ustvarjajo enotno platformo za varnost in logistiko. Predavanje obravnava prehod s pasivnega nadzora na proaktivno, z umetno inteligenco podprto dispečiranje, pri katerem se avtomatizirana opozorila neposredno posredujejo ekipam na terenu. Poleg letalstva predstavitev prav tako ponazori, kako ta interoperabilna orodja optimirajo postopke v pristaniščih, trgovini na drobno, pri velikih dogodkih in drugje.

The Motorola Solutions Ecosystem: AI-Driven Interoperability for Next-Generation Logistics and Critical Operations

Nikola Cvetkovski presents the digital transformation of Belgrade Nikola Tesla Airport, demonstrating how MOTOTRBO radios, Avigilon AI video, and body-worn cameras create a unified security and logistics platform. This session examines the shift from passive monitoring to proactive, AI-driven dispatching, with automated alerts sent directly to field teams. Beyond aviation, the presentation shows how these interoperable tools streamline operations for ports, retailers, large-scale events, and more.

Peter Milinović

Director of Technology, Network and Logistics
Pošta Slovenije d.o.o.

Kariera Petra Milinovića na Pošti Slovenije traja že 20 let – od terenskega dela pismonoše do strateškega vodenja logistike, mreže in tehnologije. Izkušnje z vseh ravni sistema mu omogočajo razumevanje sedanjih izzivov logistike ter učinkovito vodenje več kot 5.000 zaposlenih v kompleksnem operativnem okolju.

Petar Milinović's career at Post of Slovenia has spanned 20 years, from field work as a postman to strategic management of logistics, network, and technology. His experience at all levels of the system enables him to understand the current challenges of logistics and to lead more than 5,000 employees effectively in a complex operational environment.

Luka Bradeško

CEO and Founder
Solvesal d.o.o.

Dr. Luka Bradeško je direktor in ustanovitelj podjetja Solvesall d.o.o. ter raziskovalec na Institutu »Jožef Stefan« v Laboratoriju za umetno inteligenco, kjer vodi projekte na področju mobilnosti in logistike. Doktoriral je na Mednarodni podiplomski šoli Jožefa Stefana v Ljubljani s področja pridobivanja znanja prek pogovorov v naravnem jeziku in množičnega sodelovanja (crowdsourcing). Med letoma 2008 in 2013 je bil vodilni programski inženir v podjetju Cycorp Europe, evropski podružnici ameriškega podjetja za umetno inteligenco Cyc Inc. Med letoma 2017 in 2019 je bil višji raziskovalni inženir v podjetju Bloomberg L.P. v New Yorku. Leta 2019 se je vrnil v Slovenijo, kjer vodi podjetje Solvesall, ki razvija lastne produkte in pomaga drugim podjetjem pri uvajanju umetne inteligence na področjih mobilnosti, logistike in prostega časa (karavaning).

Dr. Luka Bradeško is the CEO and founder of Solvesall d.o.o. and a researcher at the Jožef Stefan Institute, Artificial Intelligence Laboratory, where he manages mobility and logistics projects. He obtained his PhD from the Jožef Stefan International Postgraduate School, Ljubljana, Slovenia, with a dissertation on knowledge acquisition through natural language conversation and crowdsourcing. From 2008 to 2013, he worked as a principal software engineer for Cycorp Europe, the EU branch of the American AI company Cyc Inc. From 2017 to 2019, he was a senior research engineer at Bloomberg L.P. in New York. In 2019, he returned to Slovenia to lead Solvesall, which develops products and assists other companies in applying AI to mobility, logistics, and leisure (caravanning).

PREDAVANJE: LECTURE:

Optimizacija dostavnih točk za večjo učinkovitost

Predstavili bomo vzpostavitev inovativnega orodja za optimizacijo pisemske dostave – kreiranje statičnih dostavnih okrajev. Rešitev je povečala operativno učinkovitost, izboljšala odzivnost ter omogočila enakomernejšo porazdelitev obremenitev in prilagodljivost za prihodnje potrebe. Orodje predstavlja pomemben korak k digitalizaciji dostave, zaposlenim pa zagotavlja pomoč tudi v obliki navigacije in podpore pri delu na terenu; prav tako neposredno prispeva k znižanju ogljičnega odtisa CO₂ z zmanjšanjem prevoženih poti. Predavanje navaja konkreten primer, kako lahko trajnost in tehnologija soustvarjata merljive logistične učinke.

Optimization of Delivery Points for Greater Efficiency

We will present the implementation of an innovative tool for optimising letter delivery: the creation of static delivery districts. This solution has increased operational efficiency, improved responsiveness, and enabled a more balanced workload distribution, as well as adaptability to future needs.

The tool is an important step towards the digitalisation of delivery services, providing employees with support through navigation and on-the-ground assistance. It also directly contributes to reducing the CO₂ footprint by decreasing the distances travelled. The presentation provides a concrete example of how sustainability and technology can work together to achieve measurable logistics outcomes.

FARIZON V7E. ZA URBANO LOGISTIKO.

Farizon V7E je električni dostavni kombi, namenjen predvsem mestni logistiki, dostavi paketov in lahkim gospodarskim opravilom s poudarkom na učinkovitosti, prostornosti in nizkih obratovalnih stroških.

Tracknav

Digitalizirano upravljanje transporta in voznega parka - Ko podatki in tehnologija delajo za vas.

Strokovnjaki na področju digitalizacije transporta, z več kot 27 let izkušenj na največjih trgih zahodne Evrope.

Upravljanje poteka dela

- Elektronski transportni nalogi
- Integracija eCMR
- Načrtovanje in optimiranje voženj in dostav
- Elektronski delovni nalogi
- Enostavna komunikacija z voznikom

Upravljanje delovnega časa

- "Online" tahograf podatki voznika
- Predvidevanje razpoložljivega delovnega časa voznikov
- Izračun delovnih ur – predlog obračuna plače
- Izračun dnevnic
- Potni nalogi

Spremljanje parametrov vožnje

- Sledenje vozil, prikolic in drugih prevoznih
- Nadzor temperature tovornega prostora
- Odčitavanje tahografa na daljavo
- Nadzor porabe goriva
- ECO drive

Upravljanje dokumentov

- Izmenjava dokumentov med vozilom in pisarno
- Delo z eCMR
- Obvladovanje e-dokumentov
- Uporaba podatkov e-dokumentov v zalednem sistemu
- Sken papirnih dokumentov in pošiljanje v pisarno

Matjaž Marovt

Executive Director for the Industrial Division
Adria Mobil d.o.o.

Matjaž Marovt je univerzitetni diplomirani inženir elektrotehnike z diplomom Fakultete za elektrotehniko Univerze v Ljubljani. Podiplomski magistrski študij (MSc) s področja managementa kakovosti je opravil na Sheffield Business School v okviru Sheffield Hallam University, z magistrskim delom pa je bil nominiran za evropsko nagrado za magisterska dela EFQM. Je izvršni direktor za industrijsko področje v Adrii Mobil d.o.o., v preteklosti pa je bil generalni direktor HSE, član uprave Prevent Global d.d., pred tem pa je več let opravljal vodstvene funkcije v Gorenju kot direktor kakovosti, direktor programa ter izvršni direktor za nabavo in logistiko. Bil je tudi višji predavatelj na Fakulteti za logistiko Univerze v Mariboru.

Matjaž Marovt holds a university degree in electrical engineering from the Faculty of Electrical Engineering, University of Ljubljana. He completed his postgraduate master's studies (MSc) in quality management at Sheffield Business School, part of Sheffield Hallam University, and his master's thesis was nominated for the European EFQM Master Thesis Award. He is Executive Director for the Industrial Division at Adria Mobil d.o.o. Previously, he served as CEO of HSE, was a Management Board Member at Prevent Global d.d., and earlier held several leadership positions at Gorenje, including Director of Quality, Programme Director, and Executive Director for Procurement and Logistics. He has also worked as a senior lecturer at the Faculty of Logistics, University of Maribor.

Veljko Goleš

Director of Logistics
Adria Mobil d.o.o.

Veljko Goleš je diplomirani inženir strojništva, izobrazbo je pridobil na Fakulteti za strojništvo Univerze v Ljubljani. Podiplomski magistrski študij industrijskega inženiringa je zaključil na Fakulteti za industrijski inženiring (FINI) v Novem mestu. Več let je svojo karierno pot gradil v avtomobilski industriji v podjetju TPV d.o.o., kjer je začel na različnih vodstvenih položajih s področja tehnologije proizvodnje in projektne pisarne, kasneje pa napredoval na mesto direktorja različnih proizvodnih obratov. Danes je direktor logistike v podjetju Adria Mobil d.o.o., kjer je odgovoren za strateški razvoj in optimizacijo logističnih procesov. V svojem delu se osredotoča na razvoj, izboljšave in inovativnost, kar potrjujejo številna priznanja Gospodarske zbornice na lokalni in državni ravni.

Veljko Goleš is a graduate mechanical engineer who obtained his degree from the Faculty of Mechanical Engineering at the University of Ljubljana. He completed his postgraduate master's studies in industrial engineering at the Faculty of Industrial Engineering (FINI) in Novo Mesto. He developed his career over many years in the automotive industry at TPV d.o.o., where he began in various managerial roles in production technology and the project office, later progressing to director of several production plants. He is currently Director of Logistics at Adria Mobil d.o.o., where he is responsible for the strategic development and optimisation of logistics processes. His work focuses on development, improvement, and innovation, as demonstrated by numerous awards from the Chamber of Commerce at both local and national levels.

> PREDAVANJE: LECTURE:

Digitalizacija interne logistike kompleksne maloserijske proizvodnje v Adria Mobil

Adria Mobil organizacijo in tehnološke rešitve tovarne gradi na specifičnih potrebah industrije, za katero so značilne majhne količine, zelo kompleksni proizvodi, kompleksna dobavna veriga in posebne potrebe v proizvodnji. To zahteva razvoj lastnih informacijskih rešitev, nižjo stopnjo avtomatizacije, velika vlaganja v ergonomsko pomagala ter poudarek na usposabljanju zaposlenih za kompleksen nabor operacij.

Z vidika logistike je Adria Mobil zahtevno podjetje. Zaradi velikega števila sestavnih delov v proizvodnji, širokega nabora osnovnih različic vozil in izdelave po meri kupcev je nujno dobro obvladovanje informacij v proizvodnji in drugih poslovnih funkcijah.

Zaradi navedenega je učinkovito upravljanje podatkov ključno. Prikazani bodo logistični tokovi, digitalne rešitve in povezovanje podatkov v celotnem podjetju – od naročil do proizvodnje in dobave. Predavanje vključuje tudi pogled v prihodnji razvoj ter uporabo umetne inteligence v logistiki.

Digitalization of Internal Logistics in Complex Low-Volume Production at Adria Mobil

Adria Mobil structures its organisation and technological solutions around the specific needs of the industry, which is characterised by low volumes, highly complex products, a complex supply chain, and specific production requirements. This requires the development of proprietary IT solutions, a lower level of automation, significant investment in ergonomic equipment, and a strong emphasis on employee training to manage a complex set of operations.

From a logistics perspective, Adria Mobil is highly demanding. Owing to the large number of components in production, the wide range of base vehicle variants, and customer-specific manufacturing, effective management of information in production and across other business functions is essential.

Therefore, effective data management is essential. The lecture will cover logistics flows, digital solutions, and data integration throughout the company, from orders to production and delivery. It will also provide an outlook on future developments and the use of artificial intelligence in logistics.

Andrew Melville

Co-founder and Managing Director
Europe for Mission Control AI

Andrew Melville je soustanovitelj in direktor za Evropo pri podjetju Mission Control AI. Njegova naloga je pomagati strankam pri uvajanju najsodobnejših rešitev umetne inteligence za preoblikovanje njihovih poslovnih procesov. Ima več kot 15 let izkušenj na področjih poslovne strategije, svetovanja in upravljanja produktov, med drugim pri Accenture, AT&T in Discovery. Kot govorec in vizionar se osredotoča na vpliv umetne inteligence na delovno okolje in gospodarstvo ter piše o umetni inteligenci za publikacijo LogReal Direkt.

Andrew Melville is Co-founder and Managing Director, Europe, for Mission Control AI. He is committed to helping clients deploy cutting-edge AI to transform their operations. He has 15 years of experience in corporate strategy, consulting, and product management, including roles at Accenture, AT&T, and Discovery. He is a speaker and thought leader focused on AI's impact on the workforce and economics, and writes about AI for LogReal Direkt.

> PREDAVANJE: LECTURE:

Problem pri usklajevanju podatkov o zalogah – 1000-krat učinkovitejši in 80 % cenejši od ekipe svetovalcev

Naša stranka, logistično podjetje z letnimi prihodki v višini 11 milijard USD, se je soočila z izzivom usklajevanja podatkov o zalogah: 60.000 enot SKU, 1,8 milijona zapisov in 50 različnih pravil poimenovanja za preverjanje pravilne kratice izdelka. Svetovalno podjetje je predlagalo trimesečni projekt s stroški v višini več milijonov dolarjev.

Z uporabo naše platforme umetne inteligence smo za ta projekt konfigurirali sintetičnega delavca. Celotno usklajevanje je zaključil v samo osmih urah – tisočkrat učinkoviteje in z 80 % nižjimi stroški kot ekipa svetovalcev. Končni rezultat, ki ga je ustvarila naša umetna inteligenca (podatkovna tabela), je bil nato preverjen z njihovim standardnim postopkom zagotavljanja kakovosti in kontrole. Naročnik je kasneje uvedel sintetične delavce za avtomatizacijo procesov usklajevanja zalog ter upravljanje glavnih podatkov.

Inventory data reconciliation problem – 1,000 times more efficient and 80% less costly than a team of consultants

Our client, an \$11 billion logistics company, faced an inventory data reconciliation challenge: 60,000 SKUs, 1.8 million records, and 50 different naming rules to verify the correct short-form product name. A consulting firm proposed a three-month project costing several million dollars.

Using our AI platform, we configured a Synthetic Worker for this project. It completed the entire reconciliation in just eight hours—1,000 times more efficient and at 80% lower cost than a team of consultants. The deliverable produced by our AI (a data table) was then validated through their standard QA/QC process. The client has since adopted Synthetic Workers to automate inventory reconciliation and Master Data Management.

Thomas Irrenhauser

Project Manager for Industry 4.0 and Innovations
BMW Group

Dr. Thomas Irrenhauser ima pomembno vlogo na področju digitalizacije in avtomatizacije pri BMW. Kot vodja projektov za industrijo 4.0 in inovacije razvija logistično robotiko, avtonomne sisteme in rešitve, ki temeljijo na umetni inteligenci. S strateškim strokovnim in tehničnim znanjem optimira globalne proizvodne procese, spodbuja odkrivanje novih podjetij in uspešno uvaja trajnostne, trajnostno naravnane tehnologije, usmerjene v prihodnost.

Dr Thomas Irrenhauser plays a significant role in digitalisation and automation at BMW. As project manager for Industry 4.0 and innovations, he advances logistics robotics, autonomous systems, and AI-based solutions. With strategic expertise and technical knowledge, he optimises global production processes, promotes start-up scouting, and successfully implements sustainable, future-oriented technologies.

Mario Trautner

Digitalisation Specialist
BMW Group

Mario Trautner je strokovnjak za digitalizacijo v BMW-jevi tovarni vozil v Münchnu, kjer vodi skupino strokovnjakov z različnimi funkcijami. V tej vlogi je odgovoren za razvoj naprednih rešitev, kot so orodja za upravljanje KPI na podlagi podatkov in modeli strojnega učenja za izboljšanje proizvodnih procesov. Poleg tega nadzoruje strategijo digitalizacije tovarne in spodbuja izvajanje inovativnih IT- aplikacij.

Pred tem je bil vodja projektov v Oddelku za logistično robotiko pri BMW, kjer je prispeval k razvoju inteligentnih logističnih sistemov in vodil integracijo v tovarni razvitih robotov v proizvodno mrežo.

Mario Trautner is a Digitalisation Specialist at BMW's vehicle plant in Munich, where he leads a cross-functional expert team. In this role, he is responsible for developing advanced solutions, such as data-driven KPI management tools and machine learning models, to enhance manufacturing processes. He also oversees the plant's digitalisation strategy and drives the implementation of innovative IT applications.

Previously, he was Project Lead in BMW's Logistics Robotics division, where he contributed to the development of intelligent logistics systems and managed the integration of in-house developed robots into the production network.

PREDAVANJE: LECTURE:

Digitalizacija in umetna inteligenca: od načrtovanja do uporabe v glavni tovarni BMW v Münchnu

Predstavitev se osredotoča na uporabo 3D-podatkov in umetne inteligence skozi celoten življenjski cikel proizvodnih sistemov – od začetnega načrtovanja do vsakodnevnega obratovanja. Digitalni dvojček se ustvari na podlagi 3D-skeniranega proizvodnega okolja in je osnova za načrtovanje ter zagon novih naprav. Predstavljene so različne tehnologije, ki zajemajo 3D-podatke. Ob zagonu obratov sta ključnega pomena zagotavljanje visoke razpoložljivosti in stroškovne učinkovitosti. Pri izpolnjevanju teh zahtev se vse pogosteje uporabljajo orodja, podprta z umetno inteligenco. Predstavitev je dopolnjena s praktičnimi primeri iz tovarne v Münchnu.

Digitalisation and AI: from planning to operation at the BMW main plant in Munich

This presentation highlights the use of 3D Data and artificial intelligence throughout the entire lifecycle of production systems, from initial planning to daily operation. A digital twin is created based on a 3D scan of the production environment and serves as the foundation for planning and commissioning new facilities. Different technologies used for 3D data gathering are presented. Once the plants are operational, ensuring high availability and cost efficiency becomes essential. AI-supported tools are increasingly applied to meet these demands. The presentation is complemented by practical examples from the Munich plant.

Z napredno integracijo WMS in industrijske avtomatizacije:

HITREJŠI PROCESI

avtomatizirani roboti in transportni trakovi so sinhronizirani z WMS-jem za optimalno učinkovitost.

MANJ NAPAK

precizna avtomatizacija odpravlja človeške napake pri skladiščenju in izdaji blaga.

REALNOČASOVNO SLEDENJE

pametni senzorji in AI algoritmi zagotavljajo popoln nadzor nad zalogo.

ZNIŽANJE STROŠKOV

avtomatizirani procesi skrajšajo delovne ure in zmanjšajo izgube.

Dragana Klepić

Regional Business Development Manager
BE-terna

Dragana Klepić je regionalna vodja poslovnega razvoja, odgovorna za spodbujanje strateške rasti in širitev na trge več geografskih območij. Tesno sodeluje s prodajnimi, marketinškimi in partnerskimi ekipami pri prepoznavanju novih poslovnih priložnosti ter krepitvi odnosov s strankami za podporo trajnostni rasti prihodkov. Posebno pozornost namenja uvajanju novih tehnologij, vključno z umetno inteligenco, ter prikazovanju izboljšav operativne učinkovitosti in odločanja v logističnih in oskrbovalnih procesih s pomočjo naprednih rešitev umetne inteligence. Pred tem je opravljala različne funkcije v podjetjih s področja informacijske tehnologije na področjih upravljanja ključnih strank, korporativne strategije, prodaje in poslovnega razvoja, pri čemer je sodelovala s strankami od malih in srednje velikih podjetij do organizacij s seznama Fortune 500.

Dragana Klepić is a Regional Business Development Manager responsible for driving strategic growth and expanding market presence across multiple territories. In this role, she works closely with sales, marketing, and partner teams to identify new business opportunities, strengthen client relationships, and support sustainable revenue growth. She is particularly passionate about introducing emerging technologies, including AI, and demonstrating how advanced AI solutions can improve operational efficiency and decision-making in logistics and supply chain processes. Previously, she held positions with various enterprise IT companies in account management, corporate strategy, sales, and business development, working with clients ranging from SMBs to Fortune 500 organizations.

Božidara Cvetković

AI Team Leader
BE-terna

Božidara Cvetković je vodja podatkovne VodLead Data Scientist v podjetju BE-terna, v katerem razvija napredno umetno inteligenco in analitične rešitve. Pred tem je bila raziskovalka in podoktorska sodelavka na Inštitutu Jožef Stefan, kjer se je ukvarjala z umetno inteligenco in obdelavo podatkov. Z bogatimi akademskimi in industrijskimi izkušnjami pomaga podjetjem sprejemati boljše odločitve na podlagi podatkov.

Božidara Cvetković is Lead Data Scientist at BE-terna, where she has been developing advanced AI and analytical solutions. Prior to that, she worked as a researcher and postdoctoral researcher at the Jožef Stefan Institute, specialising in artificial intelligence and data processing. With her extensive academic and industrial experience, she helps companies make better decisions based on data.

PREDAVANJE: LECTURE:

Zgodovinski in aktualni podatki za napovedovanje povpraševanja, optimizacijo zalog ter pametno prerazporejanje blaga med N sport prodajalnami (primer dobre prakse).

N Sport je ena vodilnih verig športne in modne maloprodaje v regiji z desetinami trgovin in kompleksno dobavno verigo, ki nenehno usklajuje razpoložljivost izdelkov, sezonskost in več prodajnih kanalov. Predavanje bo predstavilo njihovo pot od razdrobljenih sistemov do enotne, podatkovno podprte platforme za upravljanje poslovanja. Skozi študijo primera bomo prikazali, kako integracija ERP-sistemov, maloprodajnih rešitev in napredne analitike zagotavlja zanesljivo osnovo za odločanje dobavni verigi ter kako ALISA AI uporablja zgodovinske in sprotne podatke za napovedovanje povpraševanja, optimizacijo zalog in inteligentno prerazporejanje blaga med trgovinami. Predavanje se bo osredotočilo na praktične izkušnje – kaj v kompleksnem maloprodajnem okolju dejansko deluje in kako lahko umetna inteligenca postane ne le koncept, temveč operativno orodje.

History and real data for demand prediction, stock optimisation, and smart (re)distribution of goods around N Sport stores (best practice business case)

N Sport is one of the leading sports and fashion retail chains in the region, with dozens of stores and a complex supply chain that continuously balances product availability, seasonality, and multiple sales channels. This session will present their concrete journey from fragmented systems to a unified, data-driven platform for managing operations. Through a real-life case study, we will show how integrating ERP, retail systems, and advanced analytics creates a reliable foundation for decision-making in the supply chain, and how ALISA AI uses historical and real-time data for demand forecasting, inventory optimisation, and intelligent redistribution of goods between stores. The session will focus on practical lessons learned – what truly works in a complex retail environment and how AI can become an operational tool, not just a concept.

Marko Drobnič

President of the Management Board
Talum d.d.

Marko Drobnič vodi Talum od leta 2011. S svojo ekipo je tradicionalno tovarno aluminija s proizvodnjo aluminija in polizdelkov preoblikoval v eno vodilnih evropskih podjetij na področju predelave aluminija ter globalnega vodilnega razvijalca in proizvajalca rešitev za embalažo v kozmetični, farmacevtski in prehranski industriji. Pod njegovim vodstvom Talum krepi konkurenčnost z učinkovitim upravljanjem procesov, optimizacijo dobavnih verig in razvojem novih strateških stebrov poslovanja, med katerimi pomembno mesto zavzema logistika.

Marko Drobnič has led Talum since 2011. Together with his team, he has transformed the traditional aluminium plant, previously focused on aluminium production and semi-finished products, into one of Europe's leading companies in aluminium processing and a global developer and manufacturer of packaging solutions for the cosmetics, pharmaceutical, and food industries. Under his leadership, Talum continues to strengthen its competitiveness through efficient process management, supply chain optimisation, and the development of new strategic business pillars, among which logistics plays an important role.

PREDAVANJE: LECTURE:

Preobrazba Taluma iz proizvajalca surovin v ponudnika rešitev

Pri preoblikovanju Taluma iz proizvajalca alumijskih polizdelkov v ponudnika celovitih rešitev za različne industrije postajajo logistični procesi pomemben del dodane vrednosti. V predavanju bo predstavljeno prilagajanje logističnih procesov novi strateški usmeritvi podjetja – od optimizacije dobavnih verig in digitalizacije do tesnejšega sodelovanja s kupci ter uvedbe krožnih modelov oskrbe z aluminijem. Globalne razmere v alumijski panogi Talum usmerjajo v nove stebre delovanja, med katerimi bo logistika z intermodalnostjo oziroma načrtovanim zalednim terminalom igrala pomembno vlogo.

Talum's Transformation from a Commodity Producer to a Solutions Provider

In Talum's transformation from a producer of aluminium semi-finished products to a provider of comprehensive solutions for various industries, logistics processes are becoming an important part of the added value. The lecture will present the adaptation of logistics processes to the company's new strategic direction, including supply chain optimisation, digitalisation, closer cooperation with customers, and the introduction of circular aluminium supply models. Global conditions in the aluminium industry are steering Talum towards new operational pillars, among which logistics – with intermodality and a planned inland terminal – will play an important role.

Vuk Mijanović

Logistics Excellence and Development Executive Director
Nelt Co d.o.o.

Vuk je svojo profesionalno pot začel leta 2005 in ima več kot dve desetletji izkušenj na področju upravljanja dobavnih verig, logistike in poslovne transformacije. Skozi leta je igral ključno vlogo pri oblikovanju in razvoju logističnih omrežij, gradnji in optimizaciji poslovanja ter vodenju kompleksnih transformacijskih pobud – od integracije programske opreme do programov za izboljšanje uspešnosti. Njegovo delo se je dosledno osredotočalo na ustvarjanje učinkovitih, odpornih in na prihodnost pripravljenih dobavnih verig. Kot član izvršnega odbora Vuk vodi strateško usmeritev in razvoj logističnega poslovanja na ravni skupine NELT. Zanima ga spodbujanje operativne odličnosti, spodbujanje trajnostnih in odgovornih poslovnih praks ter krepitev tržnega položaja in organizacijskih zmogljivosti.

Vuk began his professional journey in 2005 and brings over two decades of experience in supply chain management, logistics, and business transformation.

Over the years, he has played a key role in shaping and developing logistics networks, building and optimizing operations, and leading complex transformation initiatives - from software integration to performance improvement programs. His work has consistently focused on creating efficient, resilient, and future-ready supply chains.

As a member of the Executive Board, Vuk leads the strategic direction and development of the logistics business at NELT Group level. He is passionate about driving operational excellence, advancing sustainable and responsible business practices, and strengthening both market position and organizational capabilities.

> PREDAVANJE: LECTURE:

Transformacija Taluma od commodity proizvajalca k ponudniku rešitev

Podjetje NELT Group iz Srbije bo predstavilo svoje poslovanje. Predstavitev bo osvetlila strateško vizijo podjetja za leto 2030, načrtovane naložbe v logistična omrežja, infrastrukturo in najsodobnejše tehnologije ter razvoj regionalnega vozlišča, integriranega z intermodalnim terminalom in izboljšano povezljivostjo z morskimi pristanišči. To je edinstvena priložnost za spoznavanje inovativnega pristopa skupine NELT in njene vloge pri oblikovanju prihodnosti regionalne logistike.

Talum's transformation from a commodity manufacturer to a solutions provider

Company NELT Group from Serbia will showcase its business operations. The presentation will highlight the company's strategic vision for 2030, planned investments in logistics networks, infrastructure, and cutting-edge technologies, as well as the development of a regional HUB integrated with an intermodal terminal and enhanced connectivity to seaports. This is a unique opportunity to learn about NELT Group innovative approach and its role in shaping the future of regional logistics.

Robi Košir

Director of BTC Logistics Centre Business Unit
BTC Company

Robi Košir je univerzitetni diplomirani specialist logistike s 25 leti delovnih izkušenj na različnih logističnih področjih. Kariero je začel v Pivovarni Union, nato nadaljeval v družbi BTC d.d. v logistični dejavnosti, kjer je zadnjih 24 let zasedal različna vodilna mesta. Zadnjih 11 let je direktor Poslovne enote Logistični center BTC, kjer s svojim vodenjem, izkušnjami in strokovnostjo zagotavlja uspešno rast in razvoj logistike v družbi BTC. Več let je bil tudi član nadzornega sveta BTC d.d. Svoje bogate izkušnje je nekaj let delil kot predavatelj na višji logistični šoli v Ljubljani.

Robi Košir holds a university degree and is a logistics specialist with 25 years of professional experience in various logistics fields. He began his career at Pivovarna Union and later continued at BTC d.d. in the logistics division, where he has held managerial positions for the past 24 years. For the last 11 years, he has served as Director of the BTC Logistics Centre Business Unit, where his leadership, experience, and expertise have ensured the successful growth and development of logistics within BTC. He was also a member of the Supervisory Board of BTC d.d. for several years. In addition, he has shared his extensive experience as a lecturer at the Higher Vocational College for Logistics in Ljubljana.

> PREDAVANJE: LECTURE:

Kratka zgodba o uspehu: Logistični center BTC

Predavanje bo predstavilo izjemno, več kot 70-letno razvojno pot družbe BTC, v kateri je bila logistika ves čas ena ključnih dejavnosti razvoja in rasti družbe. Z jasno strateško usmeritvijo se je družba BTC razvila v enega vodilnih logističnih ponudnikov, zlasti na področju FMCG, kjer z uvajanjem stalnih inovacij, digitalizacije in osredotočenostjo na trajnostnost odgovarja na izzive sodobnih dobavnih verig. Poseben poudarek bo namenjen projektu tehnološko sodobnega in energetske učinkovitega Logističnega centra Zalog, enemu največjih razvojnih projektov družbe v zadnjem obdobju. Projekt je pomemben korak v smeri tehnološko napredne, učinkovite in trajnostno naravnane logistike ter temelj nadaljnjega razvoja logistične dejavnosti družbe BTC v prihodnjih letih.

Short Success Story: BTC Logistics Centre

The lecture will present the remarkable development journey of BTC, spanning more than 70 years, during which logistics has consistently been a key driver of the company's development and growth. With a clear strategic direction, BTC has become one of the leading logistics providers, particularly in the FMCG sector, addressing the challenges of modern supply chains through continuous innovation, digitalisation, and a strong focus on sustainability. Special emphasis will be given to the technologically advanced and energy-efficient Zalog Logistics Centre, one of the company's largest development projects in recent years. This project marks an important step towards technologically advanced, efficient, and sustainable logistics, and forms the foundation for the further development of BTC's logistics activities in the coming years.

Program | Programme

Kolja Štemberger

CEO

Milšped transport in logistika d.o.o. Slovenia

Kolja Štemberger je logistični menedžer z več kot 25 leti izkušenj v mednarodni logistiki in pomorskem prometu. Je CEO podjetja Milšped Slovenija ter član uprave Milšped Italija. Vodil je ključne projekte v globalnih logističnih podjetjih, kjer se je specializiral za razvoj pomorskih rešitev, optimizacijo procesov in strateško vodenje sprememb v regionalnih logističnih tokovih.

Kolja Štemberger is a logistics manager with over 25 years of experience in international logistics and maritime transport. He is the CEO of Milšped Slovenia and a member of the management board of Milšped Italy. He has led key projects in global logistics companies, specialising in the development of maritime solutions, process optimisation, and the strategic management of changes in regional logistics flows.

> PREDAVANJE: LECTURE:

Kratka zgodba o uspehu: Skupina Milšped

Predavanje bo predstavilo razvoj podjetja Milšped od ustanovitve leta 1993 do današnjega položaja enega vodilnih logističnih sistemov v regiji. Poudarek bo na ključnih fazah rasti, širitvi na evropske in globalne trge ter integriranih logističnih rešitvah, ki jih Milšped ponuja danes. Udeleženci bodo spoznali, kako je podjetje preraslo v globalno mrežo ter katere prakse in inovacije so gonilo njegovega napredka.

Short success story: Milšped Group

The lecture will present the development of the company Milšped from its founding in 1993 to its current position as one of the leading logistics systems in the region. It will focus on key stages of growth, expansion into European and global markets, and the integrated logistics solutions that Milšped provides today. Participants will learn how the company has evolved into a global network and which practices and innovations drive its progress.

Ana Soldo

**President of the Management Board of ENNA
Logic and ENNA Transport**
ENNA Logic d.o.o.

Ana Soldo je menedžerka z več kot 20 leti izkušenj v hrvaških in regionalnih logističnih podjetjih. Kot regionalna direktorica podjetja Quehenberger Logistics je bila odgovorna za razvoj celovitega logističnega koncepta za regijo Adria, povečanje tržnega deleža, optimizacijo procesov ter uvedbo metodologije LEAN. Je prejemnica številnih menedžerskih nagrad. Predseduje Združenju za promet ter Koordinaciji za logistiko in distribucijo pri Hrvaškem združenju delodajalcev.

Ana Soldo is a manager with over 20 years of experience in Croatian and regional logistics companies. As Regional Director at Quehenberger Logistics, she was responsible for developing a comprehensive concept for the Adria region, increasing market share, optimising processes, and implementing LEAN methodology. She has received numerous management awards. She also serves as President of the Transport Association and the Logistics and Distribution Coordination of the Croatian Employers' Association.

> PREDAVANJE: LECTURE:

Kratka zgodba o uspehu: ENNA LOGIC d.o.o.

Predavanje podaja kratek pregled razvoja skupine ENNA s poudarkom na vlogi družb ENNA Logic in ENNA Transport, ki sodelujeta pri razvoju in modernizaciji logističnega sektorja, da bi Hrvaška postala pomemben akter na evropskem logističnem zemljevidu. S projektom Rijeka Gateway, naložbo v vrednosti 380 milijonov evrov, se vzpostavlja logistični koridor iz Reke v zaledje vzhodne in srednje Evrope, kar bo bistveno skrajšalo in pospešilo prevoz blaga. Poseben poudarek je namenjen potencialom in izzivom železniškega omrežja v regiji ter njegovemu pomenu za nadaljnjo rast in učinkovitost prevoza.

Short Success Story: ENNA LOGIC d.o.o.

The lecture offers a brief overview of the development of the ENNA Group, focusing on the roles of ENNA Logic and ENNA Transport, which are engaged in developing and modernising the logistics sector, with the aim of positioning Croatia as a key player on the European logistics map. Through the Rijeka Gateway project, an investment of €380 million, a logistics corridor is being established from Rijeka to the hinterland of Eastern and Central Europe, which will significantly shorten and accelerate the transport of goods. Particular emphasis is placed on the potential and challenges of the regional railway network and its importance for future growth and transport efficiency.

Program | Programme

Samo Kastelic

Member of the Management Board
Intereuropa d.d.

Samo Kastelic je svojo poslovno pot posvetil delu v logistiki, vodenju in svetovanju v mednarodnih logističnih podjetjih, kjer je opravljal različne vodstvene in vodilne funkcije ter pridobil poglobljene izkušnje z upravljanjem logističnih procesov, mednarodnih dobavnih verig in optimizacijo operativnega poslovanja. Med drugim je v preteklosti že deloval v podjetju Intereuropa, kjer danes opravlja funkcijo člana uprave.

Samo Kastelic has dedicated his professional career to logistics, management, and consulting in international logistics companies, where he has held various managerial and leading positions and gained extensive experience in managing logistics processes, international supply chains, and optimising operational performance. He previously worked at Intereuropa, where he now serves as a Member of the Management Board.

Matic Pilko

Regional Logistics Manager
HOFER trgovina d.o.o

Matic Pilko je regionalni vodja logistike v podjetju HOFER trgovina d.o.o. Zadolžen je za vzdrževanje centralnega skladišča ter razvoz blaga iz skladišča do trgovin podjetja.

Matic Pilko is the regional logistics manager at HOFER trgovina d.o.o. He is responsible for maintaining the central warehouse and goods transportation from the warehouse to the company's stores.

Jani Novljan

CEO
EkoLuks d.o.o.

Jani Novljan je univerzitetno diplomiran ekonomist z dolgoletnimi izkušnjami na področju industrije, trajnostnega razvoja in uvajanja tehnoloških rešitev. Leta 2008 je ustanovil podjetje Ekoluks, kjer se ukvarjajo z razvojem rešitev na področju razsvetljave. Med drugim so razvili pametno cestno razsvetljavo ter dejavnost razširili tudi na industrijsko razsvetljavo. Leta 2017 je prevzel vodenje družinskega podjetja Kemplast, ki deluje na področju kemije in plastike.

V zadnjih letih se osredotoča na razvoj, proizvodnjo in uvedbo pametne LED industrijske razsvetljave, ki temelji na BLE Mesh (Bluetooth Low Energy Mesh) omrežju, kar omogoča učinkovito povezovanje in upravljanje naprav v industrijskih okoljih.

Pri svojem delu združuje praktične izkušnje, tehnično razumevanje in poslovni pogled na razvoj rešitev.

Jani Novljan is a university graduate economist with many years of experience in the field of industry, sustainable development and the introduction of technological solutions.

In 2008, he founded the company Ekoluks, where they develop solutions in the field of lighting. Among other things, they developed smart road lighting and expanded their activities to industrial lighting. In 2017, he took over the management of the family company Kemplast, which operates in the field of chemistry and plastics.

In recent years, he has focused on the development, production and introduction of smart LED industrial lighting, based on the BLE Mesh (Bluetooth Low Energy Mesh) network, which enables efficient connection and management of devices in industrial environments.

In his work, he combines practical experience, technical understanding and a business perspective on the development of solutions.

PREDAVANJE:**LECTURE:****Pametna razsvetljava je temelj stabilnega IoT ekosistema v logistiki – in prinaša izjemne prihranke (primer dobre prakse)**

V podjetju Hofer smo začeli pri nečem preprostem – razsvetljavi. Z zamenjavo klasičnih svetilk s pametno LED razsvetljavo smo hitro dosegli izjemne prihranke pri porabi električne energije. A tukaj se zgodba šele začne.

Vsako svetilko smo povezali v lastno Bluetooth Mesh omrežje, s čimer je razsvetljava postala hrbenica stabilnega IoT ekosistema brez ene točke odpovedi. Na to mrežo lahko brez dodatnega kabliranja priklapljamo senzorje temperature, vlage, CO₂ in prisotnosti – ter tako ustvarimo popolnoma povezano logistično okolje. Vsi podatki se zbirajo v enotni nadzorni platformi, ki že danes omogoča pregled nad delovanjem sistema. Jutri pa še več.

Sistem se razvija v celovito upravljanje energije, avtomatsko poročanje in pametno varnostno razsvetljava, ki sama zazna napake in jih pravočasno sporoči.

Rezultat so nižji stroški, več podatkov in večja varnost. Ter logistika, ki končno postane pametna.

Smart lighting is the foundation of a stable IoT ecosystem in logistics – and brings tremendous savings (Best Practice Case)

At Hofer, we started with something simple – lighting. By replacing classic lamps with smart LED lighting, we quickly achieved exceptional savings in electricity consumption. But this is only where the story begins.

We connected each lamp to its own Bluetooth Mesh network, making lighting the backbone of a stable IoT ecosystem without a single point of failure. Temperature, humidity, CO₂ and presence sensors can be connected to this network without additional cabling – creating a fully connected logistics environment. All data is collected in a single control platform, which already provides an overview of the system's operation today. And even more tomorrow.

The system is evolving into comprehensive energy management, automatic reporting and smart security lighting that detects errors on its own and reports them in a timely manner.

The result is lower costs, more data and greater safety. And logistics that finally becomes smart.

Matthias Fischer

COO / Board Member – Operations Management
Strauss Group

Matthias Fischer je kot operativni direktor Skupine Strauss odgovoren za razvoj globalne logistike Skupine Strauss. Ima več kot tri desetletja izkušenj na področju logistike. Kot diplomirani inženir na univerzi v Jeni in tehnični pionir je vodil vrsto mednarodno priznanih projektov, med drugim Stargate (zmagovalec Evropskega logističnega združenja /ELA/), CI Factory in Logistics Next Level, ki je leta 2025 prejel nemško nagrado za logistiko.

As COO of the Strauss Group, Matthias Fischer is responsible for developing the Strauss Group's global logistics. He has over three decades of logistics expertise. A graduate engineer from the University of Jena and a technical pioneer, he has led a wide range of internationally acclaimed projects, including Stargate (ELA winner), CI Factory, and Logistics Next Level, which won the German Logistics Prize in 2025.

PREDAVANJE: **LECTURE:**

Prepolovili smo dobavne roke in podvojili produktivnost (nagrajen primer dobre prakse – dobitnik nagrade Zveznega logističnega združenja /BVL/).

Logistics Next Level je projekt, s katerim je skupina Strauss uspešno prenovila svojo logistiko v obstoječem okolju. Novi sistemi za prevoz in robotski sistemi prepolovijo pretočne čase, zmanjšajo napake za 80 % in povečajo zmogljivost na 45.000 pošilk na dan. Umetna inteligenca v realnem času upravlja naročila, medtem ko avtomatizirani procesi optimirajo vračila, pakiranje in porabo energije. Sistemi AMR dokazujejo svojo učinkovitost v praksi. Trajnostna tehnologija omogoča prihranek 26.000 ton CO₂. Zaposleni so aktivno vključeni v procese ter uživajo ergonomske delovne pogoje in krajši delovni čas. Tako delujejo prvaki – predstavljamo podrobnosti in ključne vpoglede.

We halved lead times and doubled productivity (BVL AWARD winner, best practice case).

Logistics Next Level is the project through which Strauss successfully revitalised its logistics in the brownfield. New shuttle and robot systems halve throughput times, reduce errors by 80%, and increase performance to 45,000 shipments per day. AI controls orders in real time, while automated processes optimise returns, packaging, and energy consumption. AMR systems prove their effectiveness in practice. Sustainable technology saves 26,000 tonnes of CO₂. Employees are closely integrated and benefit from ergonomic workstations and shorter working hours. This is how champions operate – we present the details and insights.

Interroll Sortation Systems – Consider It Sorted

A comprehensive sortation lineup up to 21,600 items per hour.

In a world where parcel volumes are doubling and speed matters more than ever, Interroll's sortation portfolio is designed for a wide range of industries with varying throughput needs, setting the standard for efficient, reliable, and sustainable automated sorting.

Versatile

From parcels to polybags, up to 50 kg each

Energy Efficient

Over 85% efficiency, consuming up to 50% less energy than conventional systems

Reliable

More than 500 installations worldwide, with systems in operation for 15+ years

Modular & Scalable

Plug-and-play design for fast installation, easy upgrades, and flexible adaptation to any facility

HPD

MCP PLAY WITH HIGH-PERFORMANCE DIVERT

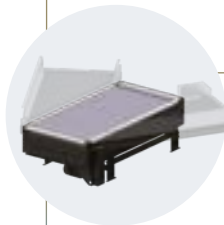

Up to **4,150** items/hour
Up to **50 kg**

MBS

MULTIBELT SWITCH

Up to **10,000** items/hour
Up to **50 kg**

MX-V

VERTICAL CROSSBELT SORTER

Up to **14,000** items/hour
Up to **35 kg**

MC-S

INTERROLL SORTTEQ MODULAR CHAINBELT SORTER

Up to **8,000** items/hour
Up to **35 kg**

MT-S

SPLIT-TRAY SORTER

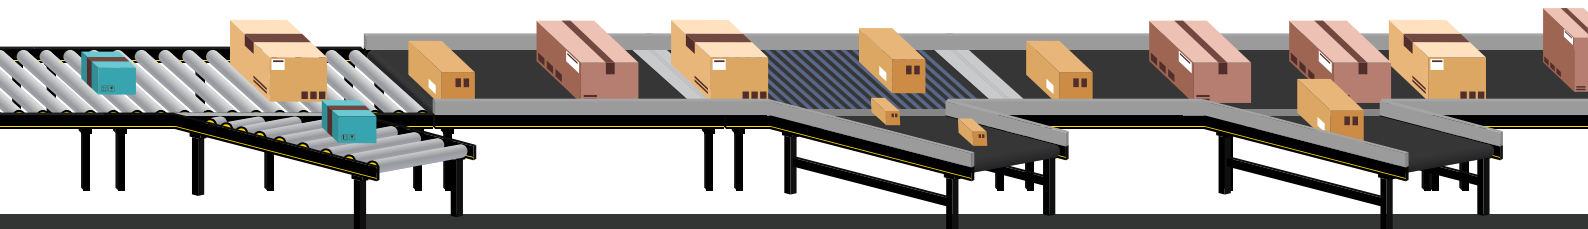

Up to **21,600** items/hour
Up to **8 kg**

MX-H

HORIZONTAL CROSSBELT SORTER

Up to **20,000** items/hour
Up to **50 kg**

Our Customer Promise: Quality, Speed, Simplicity.

David Vesel

Logistics Manager
Intersocks d.o.o.

David Vesel ima 10 let izkušenj z vodenjem logističnega poslovanja v podjetju Intersocks d.o.o. Sodeloval je pri uvedbi sistema Autostore in visokoregalnega skladišča.

David Vesel has ten years of experience as Logistics Manager at Intersocks d.o.o. He participated in implementing the Autostore system and the high-bay warehouse.

PREDAVANJE: **LECTURE:**

Popolna logistična preobrazba z uvedbo Autostore in avtomatiziranega visokoregalnega skladišča

Predavanje obravnava celovito transformacijo logistike z uvedbo sistema AutoStore in polavtomatiziranega visokoregalnega skladišča kot ključnih gradnikov sodobne intralogistike. Predstavljeni bodo tehnični vidiki delovanja obeh rešitev, njihova integracija v obstoječe logistične procese ter vpliv na učinkovitost, fleksibilnost in zanesljivost skladiščnega poslovanja. Poseben poudarek bo namenjen optimizaciji pretoka blaga, boljšemu izkoristku skladiščnega prostora, skrajšanju dobavnih časov ter zmanjšanju operativnih stroškov in napak.

Total logistics transformation with Autostore & semi-automated high-bay warehouse intro

The presentation covers a comprehensive logistics transformation through the implementation of the AutoStore system and a semi-automated high-bay warehouse as key components of modern intralogistics. It will present the technical aspects of both solutions, their integration into existing logistics processes, and their impact on the efficiency, flexibility, and reliability of warehouse operations. Special emphasis will be placed on optimising material flow, improving space utilisation, shortening lead times, and reducing operational costs and errors.

Jožko Rosa

Head of the Procurement Warehouse
INCOM d.o.o. (Leone)

Jožko Rosa je vodja nabavnega skladišča v podjetju INCOM d.o.o. (Leone). Pred tem je več let deloval v podjetju Fructal, kjer je pridobival izkušnje s področij logistike, skladiščnih procesov in sledljivosti. V INCOM-u vodi standardizacijo označevanja logističnih enot ter prehod na koncept »one-scan« zajema podatkov. Osredotoča se na zanesljivost podatkov, hitre prevzeme in učinkovito sodelovanje z dobavitelji.

Jožko Rosa is the head of the procurement warehouse at INCOM d.o.o. (Leone). He previously worked for several years at Fructal, where he gained experience in logistics, warehouse processes, and traceability. At INCOM, he leads the standardisation of logistics unit labelling and the transition to the "one-scan" data capture concept. He focuses on data reliability, rapid goods receipt, and efficient collaboration with suppliers.

Roko Staničič

IT Consultant
GSI Slovenia

Roko Staničič je svetovalec za IT in član ekipe GSI Slovenija od leta 2020. Ima bogate izkušnje s področja IT podpore ter logističnih in skladiščnih rešitev. Je strokovnjak za sledljivost v oskrbovalnih verigah in avtor več priporočil za uporabo standardov GSI v praksi, med drugim priročnika za harmonizacijo logističnih procesov.

Roko Staničič has been an IT consultant and a member of the GSI Slovenia team since 2020. He has extensive experience in IT support, logistics, and warehouse solutions. He is an expert in supply chain traceability and the author of several recommendations for the practical application of GSI standards, including a handbook on the harmonisation of logistics processes.

Damjan Zupančič

Director of the Logistics Development Unit
BTC Logistics Center

Damjan Zupančič je diplomirani inženir strojništva, ki ima 27 let izkušenj v logistiki avtomobilske industrije. Je zagovornik standardizacije in digitalizacije logističnih procesov, izmenjav in označevanja. V BTC Logističnem centru je direktor Enote za razvoj logistike, kjer se osredotoča na postopno standardizacijo logističnih segmentov, zlasti FMCG logistike, ter na učinkovito digitalizacijo in avtomatizacijo procesov.

Damjan Zupančič is a graduate mechanical engineer with 27 years of experience in automotive industry logistics. He advocates the standardisation and digitalisation of logistics processes, data exchange, and labelling. At the BTC Logistics Centre, he is Director of the Logistics Development Unit, where he focuses on the gradual standardisation of logistics segments – particularly FMCG logistics – and on the effective digitalisation and automation of processes.

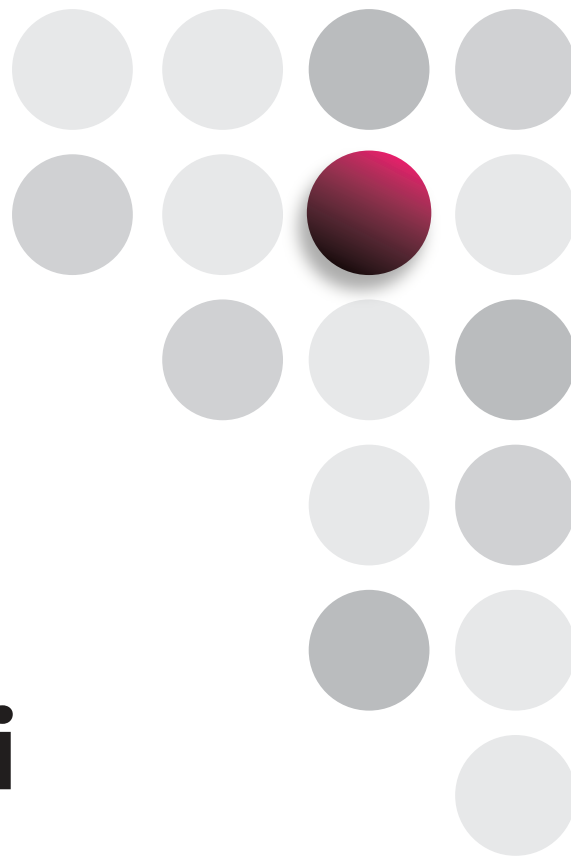

PREDAVANJE: **LECTURE:**

Standardizirani podatki, boljša preglednost: 2D-kode v sodobni logistiki

Predavanje bo predstavilo, kako lahko standardizirani podatki in uvedba 2D kod bistveno izboljšajo vidljivost in učinkovitost logističnih procesov. Na konkretnem primeru sodelovanja med GSI Slovenija, BTC Logističnim centrom in podjetjem INCOM bodo prikazani prehod na standardizirano označevanje logističnih enot, integracija z informacijskimi sistemi ter uvedba koncepta »one-scan« zajema podatkov. Udeleženci bodo spoznali izzive, tehnične rešitve in dejanske učinke v operativnem logističnem okolju.

Standardized Data, Better Visibility: 2D Codes in Modern Logistics

The presentation will demonstrate how standardised data and the introduction of 2D codes can significantly improve the visibility and efficiency of logistics processes. Using a concrete example of collaboration between GSI Slovenia, the BTC Logistics Centre, and INCOM, it will showcase the transition to standardised labelling of logistics units, integration with information systems, and the implementation of the "one-scan" data capture concept. Participants will gain insight into the challenges, technical solutions, and real-world impacts in an operational logistics environment.

Varno vodenje podjetij proti **hiperpovezani** **prihodnosti**

BE-terna je **vodilni evropski ponudnik poslovnih programskih rešitev** in **IT-storitev**. Podjetjem pomagamo poenostaviti procese, pridobiti jasen vpogled v podatke in izboljšati poslovno učinkovitost.

Kaj ponujamo?

Poslovne programske rešitve

ERP, CRM in BI
rešitve za učinkovito
upravljanje podjetja.

Podatkovno analitiko in avtomatizacijo

Boljši vpogled v podatke
in avtomatizacija
ključnih procesov.

Industrijske rešitve

Prilagojene rešitve za
podjetja v različnih
industrijah.

SREBRNI SPONZORJI
SILVER SPONSORS

BE-terna je eden vodilnih evropskih ponudnikov panožno usmerjenih poslovnih programskih rešitev in storitev. Naše poslanstvo je pomagati podjetjem in organizacijam pri krmarjenju v hiperpovezanem svetu ter jim omogočiti, da izkoristijo priložnosti, ki jih ta ponuja, hkrati pa obvladujejo tudi tveganja.

Med naše stranke sodijo globalne korporacije in srednje velika podjetja, ki želijo z uporabo najsodobnejše poslovne programske opreme, prilagojene njihovim specifičnim potrebam, pridobiti konkurenčno prednost. Kot del skupine Telefónica Tech ter dolgoletni partner Microsofta, Inforja, Qlika in UiPatha BE-terna svojim strankam zagotavlja stabilnost in trajnost, ki ju potrebujejo pri svojih projektih digitalizacije in avtomatizacije.

V podjetju BE-terna imamo več kot 1.100 predanih strokovnjakov za tehnologijo in svetovanje na 23 lokacijah po vsej Evropi, ki so zavezani usmerjanju naših strank v hiperpovezan svet.

BE-terna is one of the leading European providers of industry-specific business software solutions and services. Our mission is to help businesses and organizations navigate in a hyperconnected world and take advantage of the opportunities it offers while also managing the risks.

Our customers include global corporations and mid-sized companies that seek to gain competitive advantage by using state-of-the-art business software tailored to their specific needs. As part of the Telefónica Tech family and the long-established partner network of Microsoft, Infor, Qlik and UiPath, BE-terna offers its customers the stability and sustainability they desire for their digitalization and automation projects.

At BE-terna we have more than 1,100 dedicated technology and consulting experts at 23 locations across Europe committed to guiding our customers into a hyperconnected world.

Družba BTC v Sloveniji deluje kot ena izmed vodilnih ponudnikov logističnih storitev na področju izdelkov vsakdanje rabe (FMCG) ter predstavlja eno izmed vodilnih podjetij v regiji na področju upravljanja in razvoja poslovnih nepremičnin.

Pod blagovno znamko BTC City v Ljubljani upravlja enega izmed največjih nakupovalnih, poslovnih, rekreativno-zabavišnih in kulturnih središč v Evropi, poleg tega pa upravlja še nakupovalni središči v Novem mestu in Murski Soboti. Za velike naročnike zagotavlja prvovrstne storitve na področju upravljanja nepremičninskega portfelja.

The BTC Company is one of Slovenia's leading providers of logistics services in the FMCG sector and ranks among the region's key companies in the management and development of commercial real estate.

Under the BTC City brand in Ljubljana, it operates one of Europe's largest integrated shopping, business, leisure, and cultural destinations, alongside shopping centres in Novo Mesto and Murska Sobota. For major clients, BTC delivers premium, end-to-end real estate portfolio management services.

CVS / EW EUROWAG

Skupina Eurowag je prisotna v 23 evropskih državah, vključuje več kot 313.000 vozil v svojem sistemu upravljanja in ima preko 15.500 bencinskih črpalk v sprejemni mreži. Kot vodilni ponudnik integriranih plačilnih in mobilnostnih rešitev, osredotočenih na komercialni cestni promet, preko enotne tehnološko napredne digitalne platforme Eurowag Office omogoča upravljanje goriva, cestnin, telematike, povračil DDV ter finančnih storitev. S tem pomaga prevoznikom in upraviteljem vozniških parkov pri optimiziranju stroškov in povečanju učinkovitosti.

Z optimizacijo procesov, zmanjševanjem administrativnih obremenitev in podporo trajnostnim praksam aktivno prispeva k stabilni, dolgoročni rasti ter digitalni preobrazbi transportne in logistične industrije.

The Eurowag Group is present in 23 European countries, includes more than 313,000 active trucks and has over 15,500 fuel stations in its acceptance network. As a leading provider of integrated payment and mobility solutions focused on commercial road transport, it enables the management of fuel, tolls, telematics, VAT refunds and financial services through a single technologically advanced digital platform, Eurowag Office. This helps transporters and fleet managers to optimize costs and increase efficiency.

By optimizing processes, reducing administrative burdens and supporting sustainable practices, it actively contributes to stable, long-term growth and the digital transformation of the transport and logistics industry.

DKV Mobility je vodilni evropski ponudnik celovitih rešitev za mobilnost in logistiko. Podjetjem ponuja napredne storitve za upravljanje goriva, cestnin in vozniških parkov ter digitalne rešitve, ki poenostavljajo vsakodnevno delo.

Z več kot 80-letnimi izkušnjami in prisotnostjo v več kot 50 državah DKV Mobility pomaga podjetjem optimizirati stroške, povečati učinkovitost in podpirati trajnostne transportne rešitve v Evropi.

DKV Mobility is a leading European provider of comprehensive mobility and logistics solutions. The company offers advanced services for fuel, toll, and fleet management, along with digital solutions that simplify daily operations.

With over 80 years of experience and a presence in more than 50 countries, DKV Mobility helps businesses optimize costs, increase efficiency, and support sustainable transport solutions across Europe.

YOU DRIVE. WE CARE.

Manj administracije. Več nadzora nad vašo floto.

Upravljanje voznega parka hitro postane nepregledno – stroški, roki, dokumentacija, skladnost. Z enim orodjem lahko vse poenostavite.

DKV Fleet Management Software vam omogoča:

- spremljanje vozil in voznikov v živo,
- celovit pregled stroškov, dokumentacije in vzdrževanja na enem mestu,
- samodejne opomnike za servise, tehnične preglede in druge ključne roke.

**Vse zbrano na enem mestu.
Za nižje stroške in preišljene odločitve.**

Skenirajte QR kodo ali obiščite dkv-mobility.com/si
in si zagotovite popoln nadzor nad voznim parkom.

LOGIC

Element Logic® je globalno tehnološko podjetje, specializirano za inteligentno avtomatizacijo skladišč. Od ustanovitve leta 1985 je podjetje zraslo na več kot 950 zaposlenih v 30 državah ter se uveljavilo kot prvi — in vodilni — partner AutoStore™ na svetu.

Znano po svoji zavezanosti inovacijam in pristopu, osredotočenem na ljudi, Element Logic izboljšuje učinkovitost skladišč s pomočjo edinstvene kombinacije najsodobnejše tehnologije, programske opreme, podprte z umetno inteligenco, ter rešitev po meri. To podjetjem v različnih panogah omogoča izboljšanje učinkovitosti, natančnosti in razširljivosti njihovih logističnih procesov.

Z dokazano uspešnostjo in poglobljenim strokovnim znanjem na področju intralogistike je Element Logic postal ključni partner za organizacije, ki želijo s pomočjo avtomatizacije pridobiti konkurenčno prednost. Kultura podjetja temelji na pogumu, strasti in zanesljivosti — lastnostih, ki še naprej usmerjajo njegovo poslanstvo optimizacije delovanja skladišč.

Element Logic® is a global technology company specializing in intelligent warehouse automation. Since its founding in 1985, the company has grown to employ over 950 people across 30 countries and has established itself as the first—and leading—AutoStore™ partner worldwide.

Renowned for its commitment to innovation and people-centric approach, Element Logic enhances warehouse performance through a unique combination of cutting-edge technology, AI-powered software, and tailor-made solutions. This enables businesses across industries to improve efficiency, accuracy, and scalability in their logistics operations.

With a proven track record and deep expertise in intralogistics, Element Logic has become the go-to partner for organizations seeking to gain a competitive edge through automation. The company's culture is rooted in bravery, passion, and reliability—qualities that continue to drive its mission of optimizing warehouse performance.

ekoinfo

EkolInfo je razvojno IT-podjetje, ki z lastnimi informacijskimi rešitvami, izkušnjami in uporabo umetne inteligence, omogoča učinkovito organizacijo oskrbovalnih verig in pripravo dvoriščne logistike (Yard management). Ekoinfo je s produktom e.TRANS365 izkušen partner, ker razume in pripravi digitalno strategijo ter sodeluje pri njeni implementaciji.

S svojimi rešitvami zagotavlja informacijsko podporo za organizacijo preskrbovalne verige in digitalizacijo transportne logistike v velikih proizvodnih podjetjih. eTRANS.365 je informacijska rešitev za organizacijo oskrbovalne verige. Gre za celovito programsko rešitev, ki zbira potrebe po premikih blaga v vseh povezanih podjetjih in jih procesira naprej v t. i. logistične enote in naprej v Transporte.

EkolInfo is a development IT company that, with its information solutions, experience and the use of artificial intelligence, enables efficient organization of supply chains and preparation of yard logistics (Yard management). Ekoinfo is an experienced partner with the product e.TRANS365 because it understands and prepares a digital strategy and participates in its implementation.

With its solutions, it provides information support for the organization of the supply chain and the digitalization of transport logistics in large manufacturing companies. eTRANS.365 is an information solution for the organization of the supply chain. It is a comprehensive software solution that collects the needs for the movement of goods in all related companies and processes them further into the so-called. logistics units and further into transports.

PRIGO TRUCKS

Podjetje PRIGO TRUCKS d.o.o. je del uveljavljene slovenske skupine Prigo, ki že več desetletij deluje na področju transporta, logistike in servisiranja gospodarskih vozil. Sedež podjetja je v Brezovici pri Ljubljani, njegova glavna dejavnost pa je prodaja tovornih vozil ter zagotavljanje celovitih rešitev za poslovne uporabnike. Podjetje deluje kot povezovalni člen med proizvajalci in kupci ter nudi strokovno podporo skozi celoten proces – od izbire vozila do njegove učinkovite uporabe v praksi.

PRIGO TRUCKS svojo konkurenčno prednost gradi na dolgoletnih izkušnjah, dobrem poznavanju trga in razviti servisni infrastrukturi. Poleg prodaje vozil nudi tudi svetovanje pri optimizaciji vozniških parkov ter podpira prehod na trajnostne oblike mobilnosti, kar strankam omogoča večjo učinkovitost in nižje obratovalne stroške.

Pomemben del razvoja podjetja predstavlja sodelovanje z blagovno znamko Farizon, ki deluje v okviru avtomobilskega koncerna Geely. Farizon je specializiran za električna gospodarska vozila, namenjena mestni in regionalni distribuciji, ter združuje nizke emisije, tiho delovanje in napredno tehnologijo.

Kot distributer vozil Farizon v Sloveniji PRIGO TRUCKS prispeva k uvajanju okolju prijaznih transportnih rešitev. Njihova ponudba vključuje električna dostavna in lahka tovorna vozila, primerna za urbano logistiko. Podjetje strankam nudi tudi podporo pri uvajanju elektromobilnosti ter se tako uveljavlja kot sodoben in celovit ponudnik transportnih rešitev.

Company PRIGO TRUCKS d.o.o. is part of the well-established Slovenian Prigo Group, which has been active for several decades in transport, logistics, and commercial vehicle servicing. Headquartered in Brezovica near Ljubljana, the company focuses on the sale of trucks and the provision of comprehensive solutions for business users. It acts as a link between manufacturers and customers, offering professional support throughout the entire process—from vehicle selection to efficient use in practice.

PRIGO TRUCKS builds its competitive advantage on extensive industry experience, strong market knowledge, and a developed service infrastructure. In addition to vehicle sales, it provides consulting in fleet optimization and supports the transition to sustainable mobility, helping clients improve efficiency and reduce operating costs.

A key part of the company's development is its cooperation with the Farizon brand, part of the Geely automotive group. Farizon specializes in electric commercial vehicles designed for urban and regional distribution, combining low emissions, quiet operation, and advanced technology.

As the distributor of Farizon vehicles in Slovenia, PRIGO TRUCKS contributes to the adoption of environmentally friendly transport solutions. Its offer includes electric vans and light commercial vehicles suited for urban logistics. The company also supports clients in implementing electromobility through consulting and technical assistance, positioning itself as a modern and comprehensive transport solutions provider.

Podjetje Forto d.o.o. je specializirano za prodajo, najem in servis profesionalnih čistilnih strojev ter opreme za industrijske, logistične in komercialne objekte. V naši ponudbi so med drugim pometalni stroji, čistilni stroji za mokro čiščenje tal, industrijski sesalci, visokotlačni čistilci ter druga profesionalna oprema za vzdrževanje velikih površin.

Podjetjem pomagamo zagotavljati čista, varna in učinkovita delovna okolja z zanesljivimi rešitvami ter strokovnim svetovanjem. Strankam nudimo tudi demonstracije strojev, najem opreme in celovito servisno podporo. Naše rešitve so prilagojene potrebam skladišč, logističnih centrov, proizvodnih obratov in drugih zahtevnih delovnih okolij.

Forto d.o.o. specializes in the sales, rental, and servicing of professional cleaning machines and equipment for industrial, logistics, and commercial facilities. Our portfolio includes sweepers, scrubber dryers, industrial vacuum cleaners, high-pressure washers, and other professional equipment designed for maintaining large surfaces.

We help companies maintain clean, safe, and efficient working environments through reliable solutions and expert consulting. In addition, we provide machine demonstrations, equipment rental, and comprehensive service support. Our solutions are tailored to the needs of warehouses, logistics centres, production facilities, and other demanding work environments.

Petrol je največje slovensko energetska podjetje in vodilni ponudnik energentov, ki s 317 prodajnimi mesti predstavlja eno največjih trgovskih podjetij v Sloveniji, hkrati pa je s 598 prodajnimi mesti pomembno prisoten tudi v regiji jugovzhodne Evrope. S svojo razvejano mrežo ima pomembno vlogo pri zagotavljanju mobilnosti ter zanesljive oskrbe z energijo v širši regiji. Podjetje razvija celovite energetske rešitve, ki vključujejo integracijo obnovljivih virov energije, napredne energetske sisteme ter spodbuja razvoj skupnostne samooskrbe. S ciljno usmerjenimi vlaganji v trajnostne projekte Petrol aktivno prispeva k energetskega prehodu in razvoju nizkoogljičnih rešitev.

Ob tem ponuja inovativne storitve na področju e-mobilnosti in učinkovite rabe energije ter z digitalnimi rešitvami nadgrajuje uporabniško izkušnjo, s čimer krepi svojo vlogo sodobnega ponudnika celovitih energetskih in mobilnostnih rešitev.

Petrol is the largest energy company in Slovenia and a leading supplier of energy products. With 317 retail sites, it is one of the largest retail companies in the country, while also maintaining a strong presence across Southeast Europe with a total of 598 retail locations. Through its extensive network, Petrol plays a key role in ensuring mobility and a reliable energy supply across the wider region.

The company develops integrated energy solutions that include the integration of renewable energy sources and advanced energy systems, while also promoting the development of community energy self-sufficiency. Through targeted investments in sustainable projects, Petrol actively contributes to the energy transition and the development of low-carbon solutions.

At the same time, it offers innovative services in the fields of e-mobility and energy efficiency, and enhances the customer experience through digital solutions, further strengthening its role as a modern provider of integrated energy and mobility solutions.

**BUSINESS INTELLIGENT SOLUTIONS**

Pro-Bis d.o.o. je specializirano podjetje za celovite logistične in poslovne rešitve, ki vključujejo poslovno svetovanje, optimizacijo procesov, idejne zasnove ter gradnjo in rekonstrukcijo logističnih objektov. SPICA

Špica je vodilni regijski implementator rešitev za digitalno preobrazbo na področju oskrbovalnih verig in upravljanja človeških virov. Uvajamo IT rešitve za podporo poslovno kritičnim operacijam v celotni oskrbovalni verigi, od proizvodnje, preko skladiščenja, do transporta.

V projektih povečujemo produktivnost podjetij in uvajamo popolno sledljivost. Z našo veliko regijsko ekipo več kot 100 strokovnjakov delujemo po celotni Adriatic regiji, preko partnerjev pa tudi po centralni in vzhodni Evropi ter drugje po svetu.

Na logističnem kongresu 2026 prikazujemo Zebra in Honeywell opremo in Mecalux WMS rešitev za upravljanje skladišč.

Spica International is a leading regional implementor of digital transformation solutions in the areas of supply chain and workforce management. We are designing IT solutions to support business-critical operations across the supply chain, all the way from manufacturing, through warehousing, to transportation.

This way we increase productivity of companies and introduce full traceability. With our large regional team of more than 100 professionals, we operate across the Adriatic region, through partners as well as in Central and Eastern Europe and elsewhere in the world. At the

Logistics Congress 2026, we showcase Mecalux WMS warehouse management solution along with Zebra and Honeywell devices.

Logistični center Kidričevo je sodoben logistični kompleks v poslovni coni Kidričevo, umeščen neposredno ob novo obvoznico in avtocestni križ. Skupno območje obsega 200 ha, intermodalni center Kidričevo pa dodatnih 7 ha.

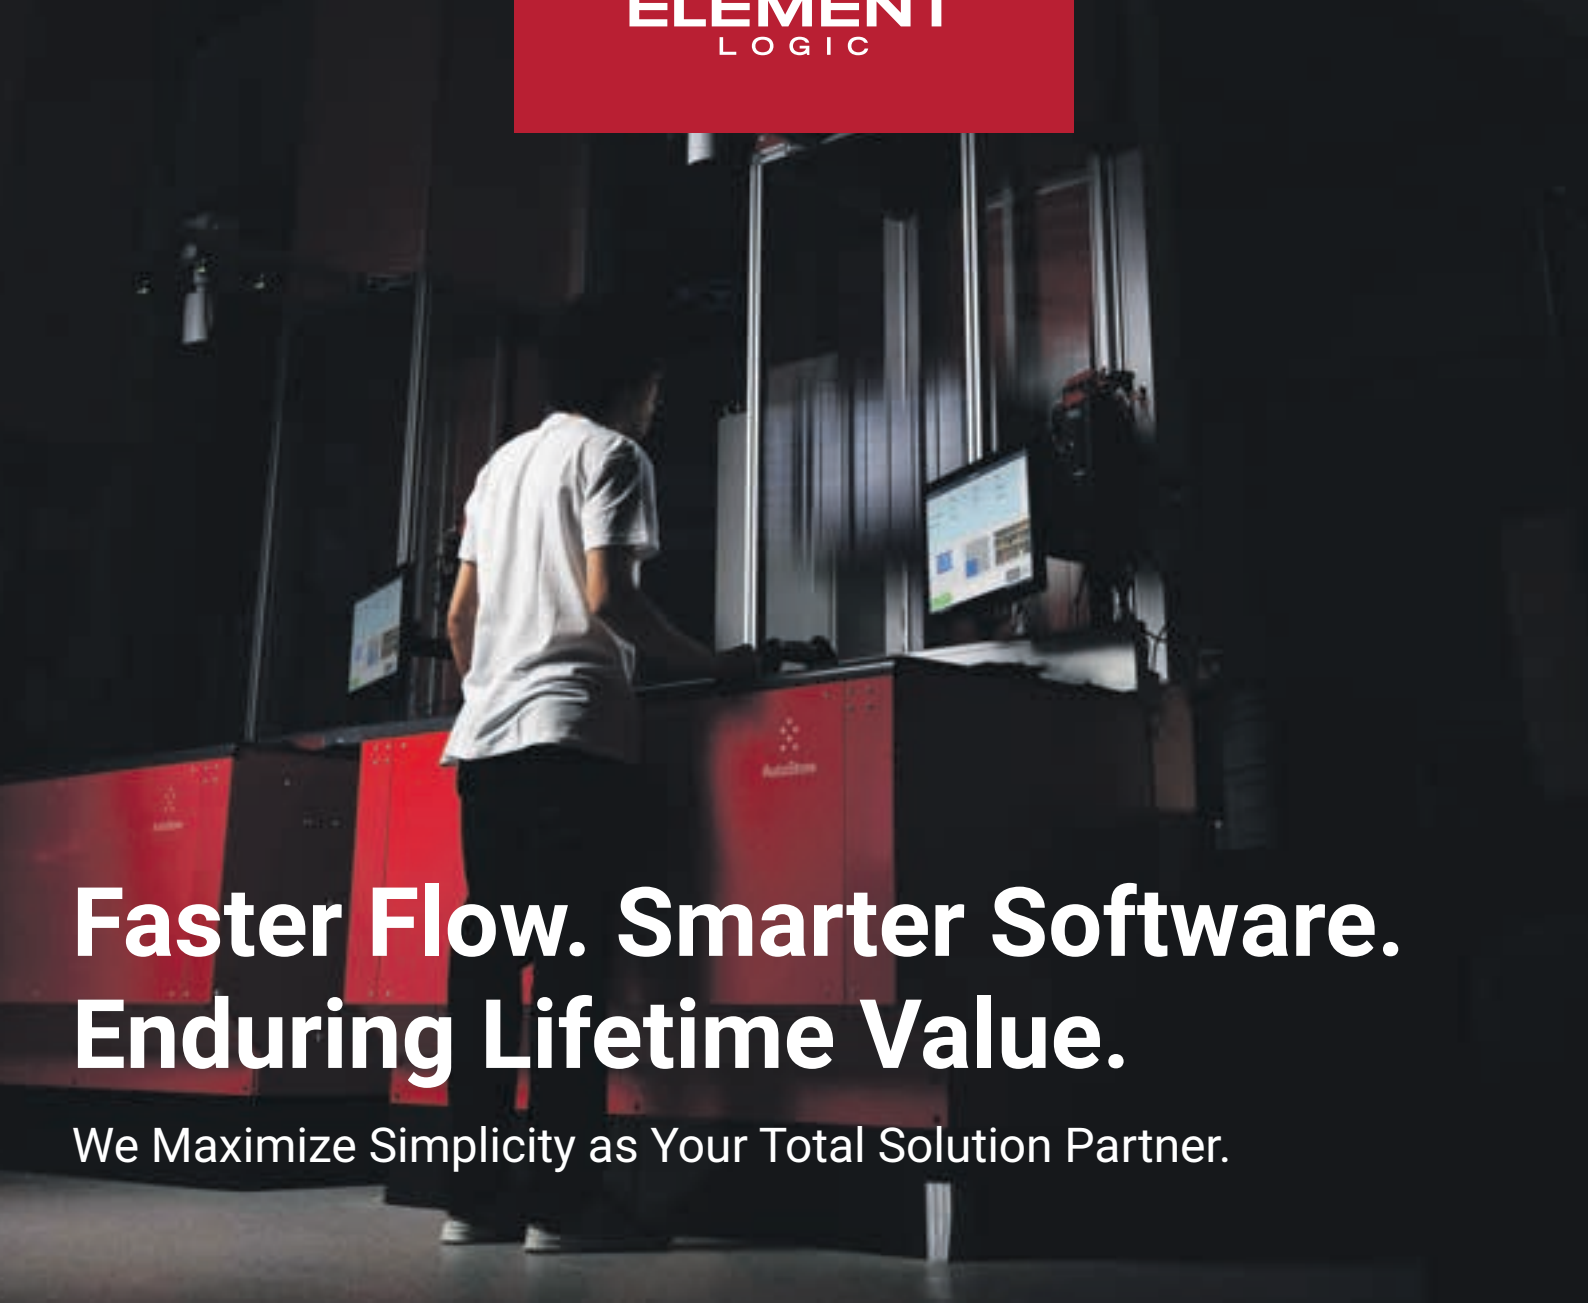

Na enem mestu omogoča izvajanje vseh ključnih logističnih procesov – od centralnega skladiščenja, distribucije in cross dockinga do učinkovitega naklada in razklada. Pomembna prednost centra je 600 m dolga proga ob terminalu ter 11 km obstoječih industrijskih tirov znotraj območja Talum, kar omogoča nadaljnjo širitev.

Center nadgrajuje tudi obstoječe znanje na področju notranje železniške logistike, digitalno podporo procesom ter prometno dostopnost, zato predstavlja velik potencial za sodobne logistične rešitve in razvoj gospodarstva.

The Kidričevo Logistics Center is a modern logistics complex located in the Kidričevo business zone, positioned directly next to the new bypass and motorway interchange. The total area covers 200 hectares, with the Kidričevo intermodal center occupying an additional 7 hectares.

It enables the execution of all key logistics processes in one place—from central warehousing, distribution, and cross-docking to efficient loading and unloading. A significant advantage of the center is the 600-meter-long track alongside the terminal, as well as 11 kilometers of existing industrial railway tracks within the Talum area, allowing for further expansion.

The center is further enhanced by existing expertise in internal rail logistics, digital process support, and strong transport accessibility, making it a highly promising hub for modern logistics solutions and economic development.

Faster Flow. Smarter Software. Enduring Lifetime Value.

We Maximize Simplicity as Your Total Solution Partner.

Automation as a Service

Automatisierung scheitert oft nicht an Technologie – sondern an Investitionshürden.

Automation as a Service macht Automatisierung nutzbar:
im Abo, leistungsbasiert, skalierbar.

So wird Fortschritt planbar – und Innovation sofort umsetzbar.

Telematski oddelek podjetja Teltonika je eden vodilnih svetovnih proizvajalcev in veletrgovcev v telematski industriji.

Kot del skupine Teltonika podjetje proizvaja in dobavlja naprave za GPS sledenje vozilom, sledilnike sredstev, rešitve za e-mobilnost, osebne sledilnike, pripadajočo dodatno opremo ter programske rešitve za učinkovito upravljanje voznih parkov vseh velikosti.

Teltonika's telematics division is one of the world's leading manufacturers and wholesalers in the telematics industry.

As part of the Teltonika Group, the company manufactures and supplies vehicle GPS tracking devices, asset, e-mobility, personal trackers, related accessories, and software solutions for effective fleet management of any size.

Podjetji Navteh in LX Track sta razvojno naravnani podjetji, ki razvijata in tržita Fleet ter Transport Management rešitve, združene v sistemu TrackNav. Z več kot 27-letno prisotnostjo na trgih zahodne Evrope TrackNav predstavlja zanesljivo in preizkušeno platformo za učinkovito, pregledno in digitalno upravljanje transportnih procesov.

Online dodeljevanje digitalnih planov dela voznikom omogoča dinamično vodenje, takojšen vpogled v realizacijo ter popolnoma elektronsko dokumentiran proces. Rezultat je prilagodljivo, pregledno in sodobno upravljanje transporta – brez nepotrebnih ročnih postopkov.

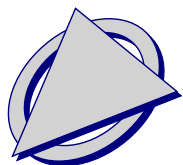

Inovativnosti, zanesljivosti in prilagodljivosti sistema TrackNav danes zaupa že več kot 350 podjetij v Avstriji, Italiji, Nemčiji in Sloveniji.

Navteh and LX Track are development-driven companies that design and market Fleet and Transport Management solutions integrated into the TrackNav system. With more than 27 years of presence in Western European markets, TrackNav represents a reliable and proven platform for efficient, transparent, and digital transport management.

Online assignment of digital work plans to drivers enables dynamic control, real-time visibility of execution, and a fully electronic, documented process. The result is flexible, transparent, and modern transport management – without unnecessary manual procedures.

Today, more than 350 companies in Austria, Italy, Germany, and Slovenia trust the innovation, reliability, and adaptability of the TrackNav system.

Najboljši ljudje vedno prinesejo najboljše stvari v logistiki. Pri We Move so nabiralci naročil, vozniki viličarjev, kontrolorji, vodje ekip in upravljavci skladišč vsi v središču pozornosti in so ključni za naš uspeh. Več kot 400 naših ključnih strokovnjakov daje Wemove-u ključno konkurenčno prednost na področju logistike in dobavne verige.

Vendar najboljši zaposleni, najboljše ekipe in najboljše storitve ne pridejo kar iz nič.

S pomočjo Akademije We Move, odličnih programov mentorstva zaposlenih in mednarodnih ekip We Move ponuja logistične rešitve, ki so prilagodljive, prilagojene in temeljijo na uspešnosti, vse na vaših lokacijah.

YES WE MOVE

Ne glede na to, ali ste trgovec, ki se vedno spopada z ozki grli v notranji logistiki, ali dobavitelj prvega reda, ki ne more slediti nenehno spreminjajočim se naročilom kupcev, ali pa se želite le osredotočiti na svoje osnovno poslovanje... We Move je lahko rešitev.

We Move ekipa lahko pride na vašo specifično lokacijo in vam zagotovi celovito rešitev, razvito posebej za vaše potrebe.

Lahko nam zaupate, da vam zagotovimo celovito rešitev, kot je 360-stopinjsko upravljanje skladišč in notranje logistike.

Ali pa samo tisti del, ki ga vidite kot najpomembnejšega za vaš uspeh:

- Zagotavljanje kakovosti
- Nabiranje naročil
- Razvrščanje
- Razkladanje in nakladanje
- Crossdocking
- Pakiranje
- Storitve z viličarji
- Akademija za viličariste in komisionarje
- Končna montaža in čiščenje
- Paletiranje

Ne glede na izbiro, za nas velja samo eno. Najboljši ljudje. Najboljša logistika. We Move.

The best people always bring the best things in logistics. At We Move, order pickers, forklift drivers, controllers, team leads, and warehouse managers are all in the spotlight and are key to our success. More than 400 of our key experts give We Move a crucial competitive edge in the field of logistics and supply chain.

However, the best employees, the best teams, and the best services don't just come out of nowhere.

With the help of the We Move Academy, excellent employee mentoring programs, and international teams, We Move offers logistics solutions that are flexible, tailored, and performance-based, all at your locations.

YES WE MOVE

Whether you are a retailer constantly dealing with bottlenecks in in-house logistics, a Tier 1 supplier unable to keep up with ever-changing customer orders, or you simply want to focus on your core business... We Move can be the solution.

A We Move team can come to your specific location and provide you with a comprehensive solution developed specifically for your needs.

You can trust us to deliver a complete solution, such as 360-degree warehouse and in-house logistics management.

Or just the part you see as most critical to your success:

- Quality assurance
- Order picking
- Sorting
- Unloading and loading
- Crossdocking
- Packaging
- Forklift services
- Academy for forklift operators and commissioners
- Final assembly and cleaning
- Palletizing

No matter the choice, for us, only one thing matters. Best people. Best logistics. We Move.

Atrios

Atrios že več kot 20 let razvija poslovne nepremičnine z združevanjem zanesljivega vodenja projektov s trajnostno, funkcionalno arhitekturo.

Razvijamo logistične in industrijske objekte razreda A namenjenih več najemnikom, kot tudi po meri zgrajene objekte z enim najemnikom. Naše dokončane zgradbe služijo predvsem strankam iz sektorjev logistike, maloprodaje, avtomobilske industrije in izdelkov široke porabe.

Naš poudarek ni le na uveljavljenih trgih, temveč razvijamo tudi projekte na novih zelo perspektivnih logističnih in industrijskih točkah v regiji CEE/JVE, zlasti na Slovaškem, v Sloveniji in na Hrvaškem.

Atrios je prilagodljivo podjetje, ki ga vodijo lastniki, z obsežnimi mednarodnimi izkušnjami in učinkovito ekipo 40 strokovnjakov.

For over 20 years, Atrios has been developing commercial real estate by combining reliable project management with sustainable, functional architecture.

We develop multi-tenant and built-to-suit single-tenant Class A logistics and industrial assets. Our completed buildings primarily serve clients from logistics, retail, automotive, and FMCG sectors.

Our focus is not only on established hubs, but we also develop projects in new highly prospective logistics and industrial spots across the CEE/SEE region, particularly in Slovakia, Slovenia, and Croatia.

Atrios is a flexible, owners-run company with an extensive international track record and an efficient team of 40 professionals.

MERIT INTERNATIONAL

V Grosupljem Merit International upravlja nov sodobno opremljen logistični center LC Bekra

- Nahaja se na odlični lokaciji, blizu avtoceste in blizu Ljubljane. Pri nas je na voljo 19 tisoč paletnih mest in več kot 10 tisoč tekočih metrov poličnih regalov.
- Procesi dela so podprti z najsodobnejšo rešitvijo za upravljanje skladišč, ki omogoča celostno in optimalno izvajanje logističnih procesov.
- Usposobljeni in izkušeni kadri izvajamo celostne logistične storitve in jih opravljamo po konceptu 3PL. Poleg klasičnega skladiščenja blaga ponujamo še razlaganje, pretovarjanje, prevzemanje, sortiranje, komisioniranje, deklariranje, opremljanje blaga z navodili, promocijska pakiranja in druge storitve. V sodelovanju s poslovnim partnerjem opravljamo transportne storitve, pri nas skomisionirano blago in blago v storitvah navzkrižnega pretovarjanja (cross-docking) v zelo kratkem času dostavljamo po vsej Sloveniji. Dodatno ponujamo še organizacijo mednarodnega cestnega, ladijskega in letalskega prevoza.
- Velik poudarek dajemo prilagodljivosti, saj se posvetimo vsakemu partnerju posebej in se dogovorimo za specifične rešitve, ki ustrezajo njihovim zahtevam.
- Na vseh področjih svojega poslovanja se držimo strogih standardov, ki veljajo v logistični panogi.
- Sodoben logistični center, optimizirani procesi dela in napredna informacijska podpora nam omogočajo, da so naše storitve cenovno ugodne in zelo konkurenčne.

S2data je specializirano za inovativno načrtovanje in optimizacijo dobavnih verig ter ponuja rešitve, ki niso le učinkovite, temveč tudi hitre in enostavne za integracijo in uporabo. Lastna rešitev podjetja, ki temelji na umetni inteligenci in deluje kot SaaS (programska oprema kot storitev), bistveno zmanjšuje logistične stroške in emisije ter hkrati zagotavlja boljšo preglednost in večjo učinkovitost v celotni dobavni verigi.

Podjetje se osredotoča na optimizacijo logističnih procesov z uporabo matematično utemeljenega 3D načrtovanja nakladanja ter avtomatizirane izbire optimalnih poti in prevoznih tarif.

S2data specializes in innovative supply chain planning and optimization, offering solutions that are not only efficient but also quick and easy to integrate and use. The company's proprietary AI-based SaaS solution significantly reduces logistics costs and emissions while providing improved visibility and efficiency throughout the entire supply chain. T

he company focuses on optimizing logistics processes through mathematically sound 3D load planning and automated selection of optimal routes and freight rates.
